

## Attana receives new order

**Attana´s distributor HVD Life Sciences places an order for an Attana biosensor. Delivery and payment will be during December 2017.**

HVD Life Sciences with headquarter in Austria is since 2015 a distributor of Attana´s biosensors. HVD have now ordered Attana´s cell-based biosensor Attana Cell™ 200 for delivery to a final customer.

Attana can at the present not reveal who the final customer is nor in which geographical region the customer operates in.

Delivery will be in December 2017.

Attana was founded in 2002 with the vision of *in-vitro* characterization of molecular interactions mimicking *in-vivo* conditions. Since then, Attana has developed proprietary label free biosensors for biochemical, crude, sera, and cell-based assays. Attana's products and research services are used by Big Pharma, biotech companies and academic institutions within the life sciences. To learn more about Attana's contract research services and our label free cell-based biosensors, please visit [www.attana.com](http://www.attana.com) or contact [sales@attana.com](mailto:sales@attana.com).
