

attana

life science and diagnostics

Attana's presentation from Biotech Showcase 2022 is now available on Attana's website

January 10–19, Attana is participating in one of the largest biotech conferences in the world – Biotech Showcase. Attana is attending the digital conference and have published a presentation as well as participated in digital one-to-one meetings.

The presentation was held in English and primarily focused on Attana's ongoing diagnostic work and its two business units – Life Science and Diagnostics.

The presentation can be accessed on Attana's website by following this link:

The Board of directors for Attana consider that the information in this press release is not likely to have a significant effect on the share price but is of general interest for the shareholders and hence should be communicated.

About Attana

Attana was founded in 2002 with the vision of *in vitro* characterization of molecular interactions mimicking *in vivo* conditions. Since then, Attana has developed proprietary label free biosensors for biochemical, crude, sera, and cell-based assays and the Attana Virus Analytics (AVA) platform, a proprietary *in vitro* diagnostics (IVD) tool. Attana products and research services are used by Big Pharma, biotech companies and academic institutions within the life sciences. To learn more about our latest services and products, please visit www.attana.com or contact sales@attana.com
