Information about Attana's presentation at Erik Penser Bank's Company Day on Mars 10 at 13.40

On Thursday, March 10 at 13.40, Attana will participate in Erik Penser Bank's Company Day. Teodor Aastrup, CEO of Attana, will hold a company presentation followed by a short Q&A session.

The 15-minute presentation will primarily focus on Attana's latest track record and proven value creation within drug development and the company's strengthened patent portfolio including two new patent applications.

Preliminary outline:

1. Attana in short
 - a. Life Science
 - b. Diagnostics
2. Updated track record
3. Strengthened patent portfolio

The event, taking place at Erik Penser Bank, will also be live streamed and can be viewed on Erik Penser Bank's Youtube channel.

When: March 10 at 13.40

The Board of directors for Attana consider that the information in this press release is not likely to have a significant effect on the share price but is of general interest for the shareholders and hence should be communicated.

About Attana

Attana was founded in 2002 with the vision of *in vitro* characterization of molecular interactions mimicking *in vivo* conditions. Since then, Attana has developed proprietary label free biosensors for biochemical, crude, sera, and cell-based assays and the Attana Virus Analytics (AVA) platform, a proprietary *in vitro* diagnostics (IVD) tool. Attana products and research services are used by Big Pharma, biotech companies and academic institutions within the life sciences.
