Notes to Editor

About IRRAS AB

IRRAS AB (NASDAQ Stockholm: IRRAS) is a publicly-traded, commercial-stage medical technology company focused on developing and commercializing innovative solutions for brain surgery. The Company's initial product, IRRAS*flow*[™], addresses the complications

associated with the current treatment methods of intracranial bleeding with a dual lumen catheter that combines active irrigation with ongoing fluid drainage. Regularly during treatment, the catheter is automatically flushed to prevent common catheter occlusions from forming. Additionally, because IRRAS*flow* is a completely closed system, it is designed to reduce the documented infection risk of these procedures.

With its unique product portfolio, protected by property patents and patent applications, IRRAS is well-positioned to establish a leadership position in the medical device market. IRRAS maintains its headquarters in Stockholm, Sweden, with corporate offices in Munich, Germany, and San Diego, California, USA. For more information, please visit www.irras.com.

The information was released for public disclosure, through the agency of the contact person above, on May 28 at 12.00 a.m. (CET).
