

Acuvi strengthens management team with new CTO

The Acuvi leadership team gets a boost with the joining of Karin Thurberg as CTO. Karin is a long-time telecom industry heavyweight having served in senior management positions in companies like Ericsson and Huawei. She has a background of having led sales roles as well as business development and product development functions in major technology companies.

Acuvi is poised to strengthen its position in the sector with the upcoming launch of its high-tech micromotor platform ULTRA. This revolutionary miniature platform delivers nanometer precision combined with the best power ratio in its class.

"Karin brings decades of experience and deep expertise from the technology and telecom industry and contributes crucial competence which will be of great value to Acuvi as the company takes on advanced projects within 5G, advanced optics and diagnostics. I am happy and proud that Karin has chosen to join Acuvi as we begin our journey to grow in new segments", says Olof Stranding, CEO of Acuvi.

Karin Thurberg has held leading management roles in global technology companies, including Director of Radio Access within Huawei and various business driving roles within Ericsson. Her most recent role was serving as Chief Product Officer at JonDeTech Sensors. Karin holds a Master's degree in Engineering Physics from The Royal Institute of Technology in Stockholm and an Executive MBA from Uppsala University.

"I am deeply impressed by Acuvi's world-leading technology in precision mechanics. I am excited to join the leadership team and contribute to the company's growth journey with my experience and know-how in development and telecom infrastructure", says Karin Thurberg, incoming CTO of Acuvi.

Karin takes up her role in August. Acuvi's current CTO, Mikko Vähäsöyrinki, will shift his focus to the role of Business Area Manager for Life Science Instrumentations and he will also continue to serve on the Acuvi management team.
