Press release Smoltek Nanotech Holding AB (publ)

2026-11-13

This press release is an English version of the previously published Swedish version, which has interpretive precedence.

Smoltek's shares to be dually listed on Boerse Stuttgart on December 2, 2026

Smoltek Nanotech Holding AB (publ) (“Smoltek” or “the Company”) announces that the NGM application process for the dual listing of Smoltek’s shares on Boerse Stuttgart has now been completed. The first day of trading on Boerse Stuttgart will be December 2, 2026.

“We look forward to being welcomed to Boerse Stuttgart. The dual listing is an important step toward increasing Smoltek’s visibility in the European capital market and making it easier for German and other European investors to trade our shares,” says Oskar Säfström, Acting CEO of Smoltek Nanotech Holding AB.

The dual listing of Smoltek’s shares on Boerse Stuttgart is part of the Reach program offered by Nordic Growth Market NGM AB (“NGM”). NGM Reach leverages the primary listing in Sweden, making shares that are primarily listed on NGM accessible to German and European investors through a parallel listing on the “Nordic Growth Market” segment of Boerse Stuttgart.

The dual listing is expected to attract a broader and more diversified investor base, which could lead to increased liquidity and improved international visibility. By being listed on both markets, Smoltek aims to strengthen its presence in the European capital market and create opportunities for new investor relationships.

Smoltek Nanotech Holding is a public technology company that provides a technology that enables the production of conductive nanostructures on various materials. The company's technology multiplies the actual surface area for electrical and chemical processes and can be used in several industrial sectors. Customers are found in semiconductors and the global process industry. The products that the company develops are used as infrastructure components for stable power supply to

microchips as well as electrodes and coating of surface structures in applications for the production and use of fossil-free hydrogen. The company protects its carbon nanotechnology through an extensive patent portfolio. Smoltek's shares are listed on the Nordic Growth Market (NGM) under the ticker symbol SMOL. Smoltek is a development company and forward-looking statements regarding time to market, production volume and price levels should be interpreted as forecasts and not commitments.
