Epiroc acquires Canadian mine connectivity provider

Stockholm, Sweden: Epiroc, a leading productivity and sustainability partner for the mining and infrastructure industries, has acquired 3D-P, a Canadian company that provides wireless connectivity solutions for surface mining.

3D-P, based in Calgary, Canada, provides reliable wireless connectivity solutions for mining companies within surface mining. A robust wireless network is crucial to enable mining automation, including teleremote and autonomous operations. 3D-P is active in North America, Chile, Peru and Australia. It has about 50 employees and had revenues in 2020 of about MUSD 12 (MSEK 110).

“Having reliable, high-quality wireless connectivity is key for mining companies that invest in automation and digitalization to strengthen safety and productivity,” says Helena Hedblom, Epiroc’s President and CEO. *“We are happy to welcome the excellent team at 3D-P to Epiroc. Together we will ensure that our customers succeed on their automation and digitalization journey.”*

The transaction is not subject to a disclosure obligation pursuant to the EU Market Abuse Regulation. To learn more about 3D-P, please see <https://3d-p.com/>.
