CEO comment

“We are delivering yet another strong quarter with a new rental record and continue to gain market share across all five markets. It is particularly encouraging to see growth in Denmark – a market where we already have high penetration.

We now have nearly 6,000 products in operation and more than 320 on the way. This provides even greater visibility and accessibility – especially in new growth areas such as the Netherlands.

With more than 900,000 active users on the app, we are confirming that our platform is both widespread and in demand. When new players enter the market, customers still choose us. It is Freetrailer they know and trust.

Mont Blanc 2027 is well underway. The strategy is working – and we are stronger than ever,” says Nicolai Frisch Erichsen, CEO of Freetrailer Group.
