### Comment from the Group CEO

Thomas Zeihlund, Group CEO of Freetrailer Group A/S, states:

“The strong performance in May confirms that the peak season is now fully underway, but also that our team is ready to deliver a great user experience through a well-functioning trailer fleet, high system uptime, strong marketing engagement, and excellent support for the relatively few customers who require assistance from our customer service team.

In May, we launched a new initiative called Freetrailer on Tour, aimed at both potential and existing users, where we meet them directly at our partner locations. It is important for us to get closer to our customers and increase awareness of the Freetrailer concept where they already use our solution in their everyday lives. This direct dialogue provides valuable insights and strengthens our relationships.

We are entering the summer season with strong momentum and a continued focus on scalable operations, high availability, and a simple, seamless user experience.”

**About Freetrailer Group A/S**

Freetrailer was founded in 2004 with a simple idea: to make it easy to borrow a trailer whenever you need one. Today, we operate an international platform that connects partners and users and makes local transport more accessible.

Freetrailer is Europe’s leading sharing-based solution for the rental of trailers and electric cargo bikes. The platform has been expanded with additional rental products tailored to local needs. Through a self-service app and digital locking systems, we create flexibility where it delivers the greatest value.

At the same time, our rental units function as mobile advertising spaces in the urban environment, creating visibility for our partners close to their customers. This makes Freetrailer an effective combination of transport and local marketing.

Freetrailer Group A/S was listed on Spotlight Stock Market in 2018.
