Traffic figures June 2026: Freetrailer increases the number of rental products by 23.7% compared to last year while maintaining strong activity

Freetrailer Group A/S continued its positive development in June 2026, recording 178,754 rentals, corresponding to 15.7% growth compared to the same period last year.

By the end of June, the fleet comprised 7,268 trailers, an increase of 1,392 trailers compared to last year, corresponding to 23.7% growth. During June alone, 252 new trailers were added, supporting the continued expansion across Freetrailer's markets.

The rental frequency reached 83.4%, compared with 88.9% in the same period last year. The decrease is partly attributable to the expansion of the rental fleet, as many newly deployed trailers have not yet been in operation for a full month. In addition, the unusually warm start to the summer affected Denmark and Sweden during what is traditionally our strongest rental periods – the weekends.

 Rental units in the market 7,268 <i>+23.7% vs. June 2025</i>	 Rental units in production 1,115 <i>including 898 new units and 217 exchange units</i>

About Freetrailer Group A/S

Freetrailer was founded in 2004 with a simple idea: to make it easy to borrow a trailer whenever you need one. Today, we operate an international platform that connects partners and users and makes local transport more accessible.

Freetrailer is Europe's leading sharing-based solution for the rental of trailers and electric cargo bikes. The platform has been expanded with additional rental products tailored to local needs. Through a self-service app and digital locking systems, we create flexibility where it delivers the greatest value.

At the same time, our rental units function as mobile advertising spaces in the urban environment, creating visibility for our partners close to their customers. This makes Freetrailer an effective combination of transport and local marketing.

Freetrailer Group A/S was listed on Spotlight Stock Market in 2018.
