Traffic figures October 2026: Freetrailer continues rapid trailer rollout and increases rentals by 24.4%

Freetrailer Group A/S achieved a total of 177,315 rentals in October, representing growth of 24.4% compared with October 2025 and the company's best October to date. From January to October 2026, we recorded 1,705,738 rentals, already exceeding the 1,665,288 for the whole of calendar year 2025.

The autumn school holiday in week 42 traditionally brings increased weekday bookings in Denmark, but growth compared with last year was primarily driven by the international markets. The rental frequency was 69.8% and should still be viewed in light of a changing country mix and the high volume of new trailer rollouts.

Thomas Zeihlund, Group CEO of Freetrailer Group A/S, comments:

"Passing the total number of rentals for the whole of 2025 as early as 24 October is an important milestone. Over the last 12 months, we are now approaching 2 million rentals, and our fleet has grown by more than a third in one year. Our targeted work to expand Freetrailer's presence is delivering results across our markets this year, while also providing a solid foundation for future growth.

I am particularly pleased with the development of our international business and the trust we see from our partners. In October alone, we expanded our partnership with Hass+Hatje in Germany and entered into an exclusive five-year agreement with Mio.

The extensive rollout of new trailers naturally affects the rental frequency while new locations build up activity. That is why we are working closely with our partners to create local demand and put the new capacity to use. This is the core of ***Free to GROW*** *and the foundation for our ambition of 5 million annual rentals by 2030."*

About Freetrailer Group A/S
Freetrailer was founded in 2004 with a simple idea: to make it easy to borrow a trailer when you need one. Today, we operate an international platform that connects partners and users and makes local transport more accessible.

Freetrailer is Europe's largest mobility platform for trailer rental. The platform has been developed around local needs, and through a self-service app and digital locking systems, we provide flexibility where it creates the greatest value.

Our rental products also serve as mobile advertising spaces in urban environments, creating visibility for our partners close to their customers. This makes Freetrailer an effective combination of transport and local marketing.

In September 2026, Freetrailer launched Free to GROW, the company's strategy towards 2030. The strategy aims to make Freetrailer the natural choice for everyday transport needs, with the overall ambition of reaching 5 million annual rentals by 2030.

Freetrailer Group A/S was listed on Spotlight Stock Market in 2018.
