- Cash flow from operations SEK 158,5 M (139,8)
- The board proposes a dividend of SEK 1,00 (0,90) per share

SUMMARY FOR OCTOBER - DECEMBER 2016

- Net sales SEK 193 M (170)
- Profit before tax SEK 24,3 M (26,9)
- Operating margin 13,3 % (16,7)
- Earnings per share before dilution SEK 0,71 (0,86)
- Cash flow from operations SEK 34,7 M (33,9)
- Acquisition of Plania AS

CEO's comments

Vitec continues to grow and is now listed among the mid-sized Swedish companies. The Group's risk diversification across countries and business areas has further improved during the year. Sweden's share of Group sales were 42 percent this year compared to nearly 50 last year.

We made three acquisitions during the year. The latest, Plania AS in Stavanger December 2016, along with the other acquisitions, added approximately 110 million to the Group's turnover and profitability.

From an earnings point of view 2016 was a transitional year, although if cleared for negative currency effects the operating profit was slightly better than last year. Cash flow continues to improve. Fourth quarter results were weaker than last year,

but last year non-recurring items of close to five million flowed into Q4 2015, which partly distorts the comparison between years.

The proportion of recurring revenues decreased slightly to 77% (78%). However, the decline was less than we initially estimated. The business model is strong and well rooted in the Group. It has a momentum

that drives the internal culture and business in the desired direction more powerful than we dared to hope.

The operating margin for the full year was 13.1 percent, which is under our target of 15 percent. Market demand in our niches is sustainable in a long-term perspective, which means that our foundation is strong to continuously strive for improving efficiency and profitability.

The number of active acquisition dialogues remains high and we continue to devote significant resources to maintain and further develop these dialogues. Our financial position and readiness for acquisitions is good, and we see significant opportunities for further acquisition-based growth.

With a clear shift from traditional license sales to subscription of cloud-based systems reduces reliance on individual license sales, which increases our long-term ability to control our business. This, together with our people's great capacity to innovate and integrate acquisitions, provides good conditions for long-term development of our business. With the acquisition of well-established companies and a high proportion of recurring revenues, Vitec continues the path to act in several independent and specialized niches to achieve sustainable profitable growth. As usual, we increase the dividend. Now for the 15th consecutive year.

Lars Stenlund, CEO

January - December 2016

Vitec continues to grow. Plania AS, which will belong to Business Area Real Estate, has been acquired during the last quarter and Tietomitta OY and Futursoft OY were acquired earlier in 2016. Each acquisition allows Vitec to achieve a better balance between various business areas, and the three new acquisitions during the year are helping to even out the distribution of profits and sales. Our product mix is also positively affected through our acquisitions and the software development we do in existing business. Our products are relatively evenly distributed across various phases, from recently launched to mature. For the year as a whole, the Estate Agents, Energy and Health business areas are reporting lower profits than in 2015, whereas the Finance & Insurance, Real Estate and Auto business areas are all reporting higher profits. Business Area Environment has been added during the year and is contributing with a positive impact on profits and Business Area Media was sold in July 2016.

Business Area AUTO

Business Area Auto is reporting slightly lower profits during the last quarter compared to the same period in 2015. For the full year, however, both sales and profits are increasing. Erling Brækkan has been recruited as the new business Area Manager for our Norwegian operation. Erling is assuming responsibility for the companies Vitec Autodata AS and Vitec Infoeasy AS. Our business in Denmark are developing according to plan for all product areas. The cloud-based offering from Futursoft has been received positively by the market in Finland.

Business Area ENERGY

Business Area Energy has continued to increase the number of new customers in Europe as a result of its intensified investment in marketing during the year. The rise in incoming orders for our GIS system is also worth mentioning. The business area is in a strong position with an operating margin of 28%, even though this is slightly lower than the even stronger 2015.

Business Area REAL ESTATE

The Norwegian software company Plania AS was acquired on the 5:th of December,. Plania is an established, mature company that offers software developed in-house for real estate management, operation and maintenance. In Sweden, the business area is growing through upgrades for existing customers, at the same time as achieving high sales to new customers. More and more customers are opting for our cloud service, which is providing our customers with greater benefit from our software at the same time as enabling us to provide an even better level of service. Both sales and profit levels are growing for Business Area Real Estate.

Business Area FINANCE & INSURANCE

Sales and profits developed in a positive direction during the fourth quarter. All three countries in which we have operations, Sweden, Norway and Denmark, are developing in line with our expectations. During the period, Fredrik Glifberg has been recruited as the new business area manager for our operation in Sweden. We have seen increased demand for our products in Denmark during the year. Demand is being driven by the fact that we have now launched the latest version of our product, as well as by new regulations in the market such as MiFiD II. In December, a contract was signed with PensionDanmark with an initial value of DKK 8 million.

Business Area HEALTH

During the last quarter, Business Area Health has continued to focus on delivery to a couple of major customers. As we have mentioned in previous reports, this is having a negative impact on profitability, although in the long term the business area will be strengthened through increased recurring revenue. The deliveries are continuing according to plan, and we are expecting them to be completed during the first half of 2017. The business area is reporting increased income and falling profits. Recurring income during the year has increased by 12% in local currency.

Business Area MEDIA

In July, the operations within Business Area Media were sold to XLENT Consulting Holding AB.

Business Area ESTATE AGENTS

Business Area Estate Agents is reporting lower profits and sales for 2016, with various major customers leaving in favor of alternatives developed in-house. While this has been a year with many challenges, we welcome the fact that we are finishing the year with a strong offering. Thanks to our intensive development work, we are the market-leaders and supply the most modern solutions for estate agents in Norway and Sweden. Our products – Next and Express – are fully mobile and suitable for all types of computers, tablets and mobile phones, with open integration options for supplementary systems. 2017 will continue to be an intensive year in terms of development but we are already adjusting so that we can offer our new products to the market at an increasingly rapid rate.

Financial information

SALES AND RESULTS

October-December 2016

REVENUES

Net sales for the period amounted to SEK 192,6 million (170,1), which represents an increase of 13 %. Recurring revenue for the period increased by 12 % from the previous year and amounted to SEK 140,3 million (125,4), corresponding to 72,9 % (73,7) of net sales. License revenue declined marginally from the previous year and amounted to SEK 9,1 million (7,9). Service revenues increased by 15 % from the previous year and amounted to SEK 37,3 M (32,4). The acquired company Tietomitta OY, which was consolidated from 5th of July, contributed during the period with net sales of SEK 9,6 million. Futursoft OY, which was consolidated from 7th of September contributed with SEK 12,5 million. Plania AS, which was consolidated from 5th of December contributed with SEK 2,2 million.

RESULTS

Operating profit amounted to SEK 25,6 million (28,4) with an operating margin of 13,3 % (16,7). Profit after tax amounted to SEK 21,0 million (25,2). Earnings per share before dilution were SEK 0,71 (0,86).

January-December 2016

REVENUES

Net sales for the period amounted to SEK 675,4 million (618,4), which represents an increase of 9 %. Recurring revenue for the period increased by 8 % from the previous year and amounted to SEK 518,5 million (480,6), corresponding to 76,8 % (77,7) of net sales. License revenue increased by 7 % from the previous year and amounted to SEK 24,8 million (23,1). Service revenues increased by 14 % from the previous year and amounted to SEK 121,1 M (106,2). The acquired company Tietomitta OY, which was consolidated from 5 July contributed during the period with net sales of SEK 18,4 million. Futursoft OY, which was consolidated from September 7th contributed with 18,8 million. Plania AS, which was consolidated from December 5th contributed with SEK 2,2 million.

RESULTS

Operating profit amounted to SEK 88,3 million (100,6) with an operating margin of 13,1 % (16,3). The decline in operating profit is attributable to higher depreciation on intangible assets and unrealized exchange losses. Profit after tax amounted to SEK 66,8 million (78,2). Earnings per share before dilution were SEK 2,27 (2,66).

LIQUIDITY AND FINANCIAL STATUS

The Group's cash and cash equivalents, including short-term investments, at end of period amounted to SEK 80,9 million (60,3). In addition to these cash and cash equivalents, was a bank overdraft facility of SEK 20 million, and SEK 5,0 million in an unused credit facility of SEK 250 million. During the period, SEK 168,5 million was used to finance acquisitions. Cash flow from operating activities was SEK 158,5 million (139,8). Investments totaled SEK 82,3 million in capitalized work, SEK 1,5 million in other intangible assets and SEK 9,0 million in tangible assets.

Total interest-bearing liabilities amounted on December 31, 2016 to SEK 383,5 million (241,1) distributed on long term debt SEK 339,4 million (207,2) and short-term interest-bearing liabilities SEK 44,1 million (33,9). During the period the convertible loan was reclassified from long- to short-term debt since when due date is in November 2017.

Equity attributable to Vitec's shareholders amounted to SEK 334,2 million (271,5). The equity ratio was 30 % (31). Paid dividend amounts to SEK 0,90 per share, totaling SEK 26,5 million.

Operations

Vitec Group operations are controlled and organized in seven segments (business areas). For more information on each business area, refer to www.vitecsoftware.com. The business areas are; Auto, Energy, Real Estate, Finance & Insurance, Health, Media, Environment and Estate Agent.

Business Area AUTO

The segment consists of Vitec AutoData AS, Vitec Datamann A/S, Vitec Infoeasy AS and Futursoft OY. The business area offers software specialized for

the unique needs of the automotive and the machinery industries. Datamann and Infoeasy were consolidated as of July 1 and 2, 2015 and Futursoft was consolidated as of September 7 2016.

Business Area ENERGY

The segment consists of Vitec Energy AB. The business area offers business systems for forecasting wind power, electricity and heating needs, as well as

for the technical management and maintenance of distribution networks.

Business Area REAL ESTATE

The segment consists of Vitec Fastighetssystem AB, Vitec Förvaltningssystem AB, Vitec Capifast AB, Vitec Software AB and Vitec Plania AS. The

business area offers business systems for construction and real estate companies. Plania was consolidated as of December 5, 2016.

Business Area FINANCE & INSURANCE

The segment consists of Vitec Capitex AB, the Group Alloc A / S and Vitec Nice AS. The business area offers business systems for the finance and

insurance industry, as well as standardized software for tax calculations, pension calculations and housing calculations.

Business Area HEALTH

The segment consists of the Group Acuvitec Oy. The business area offers business systems for elec-

tronic handling of medical records for healthcare.

Business Area MEDIA

During the period, the Group Vitec Veribas was sold. Remaining in the segment is 3L Media AB. Net sales and profit for the period includes the Group Vitec

Veriba before date of sale. The business area offers business systems for newspaper publishers and companies supplying special solutions within distribution.

Business Area ENVIRONMENT

The segment consists of Tietomitta OY, which was acquired July 5, 2016. The business area offers a product, which is an ERP system for waste management companies. It manages the entire chain of waste

management, from pick-up to billing, accounting and reporting.

Business Area ESTATE AGENTS

The segment consists of Vitec Mäklarsystem AB, Capitex AB, Vitec IT-Makeriet AS, the Group Vitec Megler AS, Vitec Fox AS and ADservice Scandinavia

AB. The business area offers business systems for real estate agents.

Significant events during the fourth quarter

DECEMBER 2: PensionDanmark chooses PORTMAN from Vitec

Vitec Aloc A/S has entered into an agreement with PensionDanmark, that PensionDanmark will use PORTMAN as their Portfolio Management system to manage PensionDanmarks investment portfolio of 194 Billion Danish Kroner. The signed deal has a revenue at approx. 8 MDKK, and a continuing annual subscription agreement.

PensionDanmark found that Vitec's software solution is a perfect match to the demands and needs defined by a company as PensionDanmark, which gives them the possibility to handle multiple assets in one system

JULY 5: Vitec acquires Plania AS in Norway

Vitec Software Group AB (publ) has on December 5 agreed to acquire 100 % of the shares in the Norwegian software company Plania AS, specialized in software for real estate administration, facility management and property maintenance. The company is expected to report sales of 28.5 MNOK for the fiscal year of 2016, with approximately 48 % recurring revenue and

an EBITDA of 6.6 MNOK.

Payment is in cash at closing. Acquisition is expected to directly result in an increase in earnings per share for Vitec. Consolidation is from December 5. The acquired company will be included in the Vitec business segment "Real Estate".

Significant events after the end of the period

JANUARI 3: Vitec moves from Small Cap to Mid Cap on Nasdaq Stockholm

Vitec Software Group AB's class B share (VIT B) has moved from the Small Cap segment to the Mid Cap segment of Nasdaq Stockholm as a result of Nasdaq's annual review of market cap values on the Nordic markets. The Vitec shares

trades in the Mid Cap segment as of January 2, 2017. The Mid Cap segment includes companies with a market capitalization between EUR 150 million and EUR 1 billion.

Risks and uncertainties

Vitec's significant risks and uncertainties are described in the Directors' Report in the Annual Report for 2015 under the heading "Risks and Uncertainties" on pages 32-33, in note 1 under "Assumptions and estimates" on page 50 and in note 20, "Financial risks and their management" on pages 63-65. No significant changes have occurred since then.

The Parent Company

Net sales amounted to SEK 98,3 million (100,4) and consisted primarily of sales to subsidiaries for services rendered. Profit after tax amounted to SEK 56,9 million (54,4). The value of shares in subsidiaries was during the period adjusted down by SEK 1,5 million and SEK 21,2 million relating to downward adjustments of contingent considerations for Fox Publish AS and Acuvitec OY. Short-term non-interest-bearing liabilities decreased correspondingly. The Parent Company is exposed to the same risks and uncertainties as the group in general, see above under section Risks and uncertainties.

Transactions with related parties

No significant related party transactions have occurred in the Group and Parent Company during the period.

*Change in accounts receivable and change in accounts payable are from 2016 reported separately. The adjustments for items not included in cash flow includes unrealized foreign exchange differences. Comparative figures have been restated for this, see table on next page.

** Payment for acquisition of subsidiaries in 2016 consisted of proceeds for Tietomitta OY, Futursoft OY and Plania AS. Net cash outflow amounted to SEK 141,2 million. All acquisitions related to the entire outstanding share capital and meant that control was obtained in all companies. Additional payments for the acquisition of Fox Publish AS SEK 2,9 million and Acuvitec OY SEK 11,9 million were also made. The payments did not result in any changes in share capital or control.

Payment for acquisition of subsidiaries in 2015 consisted of proceeds for Fox Publish AS, ADservice Scandinavia AB, Datamann A/S, Infoeasy AS and Nice AS. Net cash outflow amounted to SEK 80,6 million. All acquisitions related to the entire outstanding share capital and meant that control was obtained in all companies. During the period an additional payment was made for the acquisition of Aloc A/S SEK 4,9 million. The payment did not result in any changes in share capital or control.

ACCOUNTING AND VALUATION PRINCIPLES AND OTHER COMMENTS

This report has been prepared in accordance with IAS 34 Interim Financial Reporting. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards, IFRS, as adopted by the EU and the Swedish Annual Accounts Act. The parent company's financial statements have been prepared in accordance with the Annual Accounts Act and recommendation RFR 2 Accounting for Legal Entities. The new standards, amendments and interpretations to existing standards that have entered into force in 2016, has had no impact on the consolidated financial position or financial reports. The accounting policies and calculation methods are unchanged from the one described in the Annual Report for 2015 with the exception of the calculation of hedge investments in foreign operations.

The Group has taken out loans in foreign currencies (EUR, NOK and DKK) to hedge investments in foreign subsidiaries. The loans are valued at the exchange rate on the balance sheet date. The Group recognizes exchange rate differences directly to equity, after adjustment for tax element. Any ineffective element of the exchange rate difference is recognized directly in the income statement as a financial item.

As of July 1, 2016 the hedge accounting has been expanded to include the company's bank accounts in foreign currency. The accounts has a negative balance, and can be seen as an overdraft facility. The balance of the accounts are valued at the exchange rate on the balance sheet date, and the exchange rate difference is recognized directly to equity, after adjustment for tax element. Prior to July 1, 2016 that exchange rate difference was recognized in the operating profit. For the period July to December, SEK 2,9 million moved from operating profit to equity and other comprehensive income. If the change had occurred from the beginning of the year, SEK 7,2 million would have moved from operating profit to other comprehensive income.

The additional purchase prices for Fox Publish AS and Acuvitec OY has during the period been adjusted down by SEK 1,5 million and SEK 21,2 million. The corrections have been recognized as revenue in accordance with IFRS 3:58, and as impairment of intangible assets. The corrections have no effect on reported profit.

TAXES

Tax for the year amounted to SEK 14,6 million (22,4). Deferred tax amounted to SEK 0,6 million (-5,9). Paid tax for the year amounted to SEK 27,4 million (14,2). The difference from the previous year is partly explained by paid residual taxes for 2014, partly by newly acquired Finnish companies who pay their taxes in current year, but mainly by improved operating results between 2014 and 2015.

INVESTMENTS

Investments amounted to SEK 82,3 million in capitalized work, SEK 1,5 million in other intangible assets and SEK 9,0 million in tangible assets.

LONG-TERM DEBT

Long-term interest-bearing debt consists of bank loans SEK 339,4 million. Long-term non-interest bearing liabilities consist of deferred taxes SEK 120,7 million, pension liability SEK 7,8 million, non-current portion of additional purchase price Fox Publish SEK 2,8 million, non-current portion of additional purchase price for Futursoft SEK 23,9 million and a promissory note signed in connection with the acquisition of Nice AS SEK 2,1 million.

CONVERTIBLE DEBENTURE

Convertible debentures are included in short-term interest bearing liabilities:

- Loan 1501 (long-term debt interest bearing liabilities, staff). SEK 13,8 million. Duration of the loan is January 1, 2015 - December 31, 2017. The interest rate is Stibor 180. The conversion price is SEK 31,80. Conversion may be requested 1 November to 30 November 2017. The share capital may upon conversion increase by a maximum of SEK 44 221. At full conversion the dilution of about 1.5% of the share capital and 0.7% of the votes. The convertible program was registered by the Swedish Companies Registration Office February 11, 2015.

EQUITY

Consolidated shareholders' equity as of December 31, 2016 was SEK 334,2 million.

FINANCIAL INSTRUMENTS

Classification and valuation

Financial instruments are initially recognized at their acquisition value corresponding to the instrument's fair value plus transaction costs. A financial instrument is classified when recognized for the first time, including on the basis of the purpose for which the instrument was acquired. Vitec has financial instrument in the categories loans receivable and accounts receivable, financial liabilities valued at fair value, and financial liabilities valued at their accrued acquisition value.

Financial liabilities valued at fair value

According to IFRS 7, information must be provided about the fair value of each financial asset and financial liability, irrespective of whether they are reported in the balance sheet or not. Vitec judges that the fair value of the financial assets/liabilities is close to the reported book value.

All of the company's financial instruments that are subject to valuation at fair value are classified at level 3. The change for the period in respect of financial instruments at level 3 refers primarily to additional purchase prices for acquisitions. Conditional purchase prices are valued at fair value base on available data, such as contractual terms, as well as relevant assessments in respect of anticipated fulfillment of conditions. When calculating fair value, an assumed interest rate of 0,9% has been used. As the difference between fair value and book value is marginal, no correction has taken place.

The following table shows the difference between fair value and booked value.

Recurring valuations at fair value, as at 31 December 2016

	Level 1	level 2	Level 3	Book value
Additional purchase price Fox Publish AS			2 710	2 740
Additional purchase price Futursoft AS			23 651	23 917

For all other financial assets and liabilities, booked value is consistent with fair value.

ACQUISITIONS AND SALES

Sale of business area Media

On July 1, all shares of Vitec Veriba AB were sold. The sale constitutes most of the Vitec Media business. Since the business area is only a small part of the group, the sale is not material enough to be reported as assets for sale in accordance with IFRS 5.

Booked values for assets and liabilities at date of sales	Veriba AB	Fair value adjustment	Fair value recognized in the Group
Intangible fixed assets	588	-	588
Current receivables	1 507	-	1 507
Cash and cash equivalents	3 076	-	3 076
Current liabilities	-1 752	-	-1 752

Income/loss from sale			-655

The Group Vitec Veriba earnings until date of sales amounted to SEK 0,2 million and is included in operating profit for business area Media.

Acquisition of Tietomitta OY

On July 5, all shares in the Finnish software company Tietomitta OY were acquired. The company's product is an industry-specific software for the waste-management in Finland.

The company is consolidated as from the acquisition date. The goodwill is not tax-deductible and is deemed to be attributable to the expected profitability, complementary expertise as well as anticipated synergies in the form of the joint development of our products. The acquisition adds a new business area, we believe that the Group's new composition reduces the overall industry and market-related risks. The acquisition-related expenses amounted on December 31 to SEK 1,7 million, and are recognized as other external cost in the consolidated statement of comprehensive income. From the acquisition date up to and including the 31 December, the revenues of the acquired company amount to SEK 18,4 Million. If consolidation had occurred at the beginning of the year, the company would have brought the Group a further approx. SEK 14,9 million in revenue and approx. SEK -1,7 Million in net profit. The following purchase price allocation in preliminary until twelve months have passed since the acquisition date. The items that may be revalued are brands, product rights, customer agreements and goodwill.

Preliminary purchase price allocation (SEK thousands)	Tietomitta OY	Fair value adjustment	Fair value recognized in the Group

Net cash outflow			-29 230

Acquisition Futursoft OY

On September 7, all shares in the Finnish software company Futursoft OY were acquired. The company has specialized software for the automotive and machinery industries.

The company is consolidated as from the acquisition date. The goodwill is not tax-deductible and is deemed to be attributable to the expected profitability, complementary expertise as well as anticipated synergies in the form of the joint development of our products. The acquisition-related expenses amounted on December 31 to SEK 2,2 million, and are recognized as other external cost in the consolidated statement of comprehensive income. From the acquisition date up to and including the 31 December, the revenues of the acquired company amount to SEK 18,8 Million. If consolidation had occurred at the beginning of the year, the company would have brought the Group a further approx. SEK 32,5 million in revenue and approx. SEK 6,9 Million in net profit. The following purchase price allocation in preliminary until twelve months have passed since the acquisition date. The items that may be revalued are brands, product rights, customer agreements and goodwill.

Since the previous report, intangible assets and goodwill have been reclassified. The corrected acquisition analysis presents a more accurate picture of the acquired company's assets. Earlier values was; brands SEK 1,9 million, product right SEK 47,2 million, customer agreements SEK 23,8 million, goodwill SEK 35,6 million and deferred taxes SEK -14,6 million. The short-term portion of debt for additional purchase price has been paid out and reduced the value with SEK 11,5 million. The short-term portion of the additional purchase price was at time of payment higher than the original estimate. The residual of SEK 0,7 million have increased goodwill and the acquisition value of the company.

Key figure definitions

In this interim report, we refer to non-IFRS measures that Vitec and other parties use in evaluating the Company's results. These measures provide management and investors with meaningful information to analyze trends in the Company's business. These non-IFRS measure is intended to supplement, not replace, the financial measures presented in accordance with IFRS. Non-IFRS measures presented on the last page of this report are defined as follows.

RETURN ON CAPITAL EMPLOYED

Operating profit as a percentage of average capital employed attributable to parent company shareholders.

RETURN ON EQUITY

Profit/loss for the period, attributable to parent company shareholders, as a percentage of average shareholders' equity, attributable to parent company shareholders.

VALUE ADDED PER EMPLOYEE

Operating income plus depreciation and staff costs relative to the average number of employees.

ADJUSTED EQUITY PER SHARE

Equity attributable to shareholders in proportion to the number of shares issued at the closing-day.

CASH FLOW FROM OPERATING ACTIVITIES PER SHARE

Cash flow from operating activities divided by the average number of shares on the market during the period.

SALES PER EMPLOYEE

Net revenue, including other operating income in relation to average number of employees.

P/E RATIO

Share price at year-end divided by earnings per share.

P/ADJUSTED EQUITY PER SHARE

The share price at the balance sheet date multiplied by the number of shares issued on the closing date in relation to the equity attributable to the parent company's shareholders.

P/S

The share price at the balance sheet date multiplied by the average number of shares in relation to net sales.

EARNINGS PER SHARE

Profit/loss for the period, attributable to parent company shareholders, divided by the average number of shares on the market attributable to parent company shareholders.

OPERATING PROFIT

Operating profit as a percentage of net sales.

SOLIDITY

Shareholders' equity, including equity attributable to non-controlling interests in relation to total assets.

DEBT RATIO

Average liabilities in relation to average shareholders' equity and non-controlling interests.

PROFIT MARGIN

Net profit after tax through the net turnover.

Vitec at a glance

INDUSTRY-SPECIFIC BUSINESS SYSTEMS

Vitec develops and supplies business-critical standardised software to satisfy industry-specific needs. Our growth is taking place through the acquisition of mature software companies in the Nordic region.

LONG-TERM CUSTOMER RELATIONS

We adopt a long-term approach, focusing on our customers' security. We create value through our supportive product offering, which facilitates development and increased profitability for our customers.

BUSINESS MODEL WITH RECURRING REVENUE

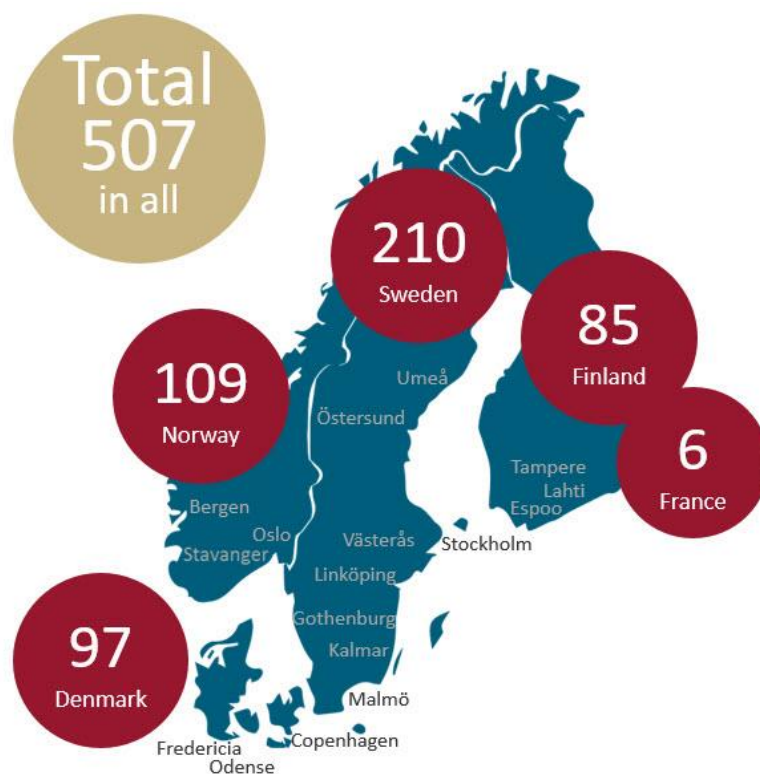

Our business model is based on a high proportion of recurring revenue. This creates the conditions to act in the long-term, as we are less sensitive to temporary downturns within individual companies.

GROWTH THROUGH ACQUISITIONS

Vitec has a pronounced acquisition-based growth strategy, with considerable focus on profitability and stable cash flows. By focusing on strong cash flows, we are creating the financial conditions for continued acquisition-driven growth.

HISTORY

Vitec was established in 1985 as a spin-off company from the University of Umeå, and since 1998 it has been a public company based on software. During our 30-year history, we have experienced continuous growth and have recorded a profit every year. Vitec is now a Nordic software Group with approx. 500 employees.
