CEO'S COMMENTS - VITEC 30 YEARS

"Hey, man," Olov said as we stood in line at Snabben, the lunch place at Universum in Umeå, "I've got an idea." Is that so, I thought, my mind mostly on which variation of beef stew was on the menu this fall day of 1984. "Yeah," he continued. "You can program, of course, and I can come up with the money for one of those new PCs! Then you can teach me programming, and at the same time maybe we can put together some program that somebody will want to buy."

No sooner said than done. I needed a hobby aside from research and the same went for Olov. Pretty soon a beige Ericsson PC stood on my desktop at home and another the following week at Olov's. We developed in Turbo Pascal – the world's fastest development environment crammed into an inconceivable 39 kB on a floppy disk.

The program we developed stemmed from Olov's idea about property owners' need for a better way to check on their energy consumption and the fact that modern tools were needed for this. The mission was clear as day! By programming at the hobbyist level in Turbo Pascal, we'd save Sweden from the energy crisis that arose in the aftermath of the 1970's oil crisis. Yep!

The hobby project proceeded at turbo speed, and in the spring of 1985 there was interest out in the market to "do business" with us and, in fact, to buy the revolutionary system that we'd developed. Several screenshots were ready, though the functionality behind them was a little iffy. Most of the buttons you clicked on caused the data to freeze. But it looked nice – and surely you had to allow for some bugs and teething problems, right? In any case, we needed to start a company so that we could get out the program and save Sweden from the energy crisis.

That's how Vitec was started in May 1985, and it's the reason we are celebrating our 30th anniversary today, with cake for all of our colleagues and stockholders coming to the annual meeting. You are most welcome!

If you want to know the results of our first quarter in 2015, you'll find them in the 23 pages that follow!

After these personal reflections, the Letter from the CEO will revert to the usual format with the next report.

Lars Stenlund, CEO

January-March 2015

The Vitec Group proceeded with its conversion to a business model characterized by a greater percentage of recurring contractual income (78 % for the first quarter of 2015). The deliberate transition at the mature units was reinforced by newly acquired businesses with a high percentage of recurring software as a service (SaaS) income. The combination of cost savings and an increased percentage of contractual income continued to boost operating profit, which topped the group's annual target in the first quarter alone.

As the result of streamlining efforts and a successful rollout of the industry's most advanced system, both sales and earnings at the Real Estate Broker business unit were better than the first quarter of 2014. The unit's offering of online products, OnBroker (Norway) and Express (Sweden), was in great demand. The number of Swedish users of the online Vitec Express system rose rapidly to 1,960. Many brokers who have switched to Vitec Express report that the new offering both facilitates and streamlines the work they do.

Operating profit at the Property Management business unit shot up by 106 % from the first quarter of 2014, while organic growth was 8 %. The improvement stemmed from successful sales of renewable contracts along with a rapid rollout of the unit's SaaS offering. Sales to new customers were robust, accounting for almost one-third of systems delivered. Recurring income rose further to more than 57 % of the total. The unit is focusing on ongoing sales of its new real estate offering, its order book at the end of the quarter was stronger than ever.

Due primarily to high nonrecurring license sales in the first quarter of 2014, income at the Media business unit was lower this year. Demand by existing customers was vigorous while recurring income rose to 36 % of the total, helping to generate a 32 % operating margin.

Even though two major user meetings were planned and held during the quarter, organic sales increased by 10% and operating profit by 140 % at the Energy business unit. Recurring income was stable at a high level. The organization will be strengthened by the addition of sales reps and a product specialist this coming fall. Owing to greater demand for product-related hourly assistance, service income was somewhat higher than 2014.

The Health business unit is in an intensive development and delivery phase involving a large upgrade project of its standard software for the Finnish Student Health Service. Recurring income at the business unit accounted for 73 % of the total. Considering that earnings are now affected by depreciation and intra-group expenses, the 11 % operating margin for the first quarter was in line with previous years.

The Auto (Norway) business unit, which sells business systems for spare parts and accessories to the automotive industry, reported sales of SEK 10.3 million and an operating margin of 7 %. Because the business unit was consolidated as of April 24, 2014, no comparative figures are available. Income, which is directly linked to customer activity and is 94 % recurring, is subject to seasonal variations such that the third and fourth quarters are normally the strongest.

Sales rose substantially at the Finance and Insurance business unit now that it includes Vitec Aloc A/S in Denmark. The Swedish business concentrated on partial deliveries of the new insurance application to Länsförsäkringar Alliance during the first quarter. The Danish business carried out a major technology upgrade of its product platform, which borrowed capacity available for services. The operating margin was 10 %.

SIGNIFICANT EVENTS DURING THE FIRST QUARTER

January 26: Vitec reduces dilution by redeemed convertible

Vitec redeems the convertible debenture as Norrlandsfonden signed in 2008. The loan amounted to SEK 10 million, fixed rate of 3.9 % and a conversion price of SEK 35. Upon full conversion it would have resulted in a dilution of approximately 4.6 % of the capital and approximately 2.1 % of the votes in Vitec. Vitec now pays 37.1 million in cash on redemption. Norrlandsfonden has also granted a loan of SEK 25 million which runs for six years with straight-line amortization that will partly finance the repurchase.

February 2: Vitec signs multiannual contract with Länsförsäkringar

Vitec has signed an agreement with Länsförsäkringar Fondliv for the supply and maintenance of a new pension and insurance schemes. The contract is worth approximately SEK 8.5 million during the first three years. The new software includes functions for calculations of retirement, disability and survivor benefits. In addition to Sweden's public pension system is also supports a dozen occupational pension agreements.

February 2: Vitec launches electronic signing of lease agreements

Vitec Business Area Property launches as the first supplier of software for facility management systems electronic signing of lease. The first application offered in collaboration with Scrive enables tenants to sign and terminate contracts online.

March 2: Vitec acquires Norwegian Fox Publish AS

Vitec Software Group AB (publ) has on March 2 agreed to acquire 100% stake in the software company Fox Publish AS and its Swedish sister company ADservice Scandinavia AB. The two companies offer a publishing system for real estate agents. Together they had sales in 2014 of approximately SEK 28 million with a common result of approximately SEK 4 million. The Norwegian market accounts for about 80 percent of sales. Payment is in cash by MNOK 14,2 at completion. A maximum additional purchase price of approximately MNOK 8 may apply. Vitec will take possession immediately. The acquisition is expected to directly result in an increase in earnings per share of Vitec.

March 26: Notice of Annual General Meeting

Shareholders of Vitec Software Group AB (publ) are hereby invited to attend the Annual General Meeting on Wednesday, 6 May 2015, at 5:30 p.m., at Väven (Norra entrén), Storgatan 46A, in Umeå. The meeting will be held in Swedish. After the AGM, a buffet will be served.

March 30: New Daily Leader for Business Estate Agents in Norway

Svein Roger Westengen, current director of the Vitec Business Auto in Norway will from April, also be head of the Vitec Business Estate Agents in Norway. Svein Roger succeeds Erik Hansen.

SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD**April 15: Vitec annual report for 2014 has been published**

Vitec today publishes the annual report for 2014 in Swedish on www.vitecsoftware.com, with information about the Group's development. The annual report describes how Vitec during the year grew further and, with increased sales, improved operating margins and increased earnings per share the full year 2014 was Vitec strongest year so far.

April 17: Residential Cluster are connected to Boplats Sverige

In a unique partnership, eight major housing companies in the north-west of Skåne in Sweden invests in connecting to the nationwide marketplace Boplats Sverige which started in 2014 on the initiative of Vitec. With a common marketplace housing companies can both simplify and speed up the search process for available rental apartments.

April 22: Cost-cutting program in Estate Agents Division

As a consequence of Swedbank Fastighetsbyrå AB having announced its successive transition to a proprietary estate agent system, Vitec is adjusting its organization. A cost-cutting program has been initiated affecting the Estate Agents Sweden Division. Fully implemented, the program will reduce annual costs by approximately SEK 15 million, and is expected to have its full effect from the fourth quarter 2015. The ongoing rollout of the SaaS-based estate agents system Vitec Express continues as planned.

ANNOTATIONS

ANN 1 ACCOUNTING AND VALUATION PRINCIPLES AND OTHER COMMENTS

This report has been prepared in accordance with IAS 34 Interim Financial Reporting. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards, IFRS, as adopted by the EU and the Swedish Annual Accounts Act. The parent company financial statements have been prepared in accordance with the Annual Accounts Act and recommendation RFR 2 Accounting for Legal Entities. The new standards, amendments and interpretations to existing standards that have entered into force in 2014, has had no impact on the consolidated financial position or financial reports. The accounting policies and calculation methods are unchanged from the one described in the Annual Report for 2014.

The report's headline division has changed in two points since March 31. In the consolidated statement of income, operating income is given before and after acquisition-related expenses. In the consolidated balance sheet, non-current and current liabilities are divided into interest-bearing and non-interest-bearing liabilities. In presenting segments the profit is given before acquisition-related expenses. Comparable figures are restated in the same way.

Financial instruments - fair value

The fair value regarding most financial assets and liabilities is close to the reported book values. However there is some difference in two cases regarding additional purchase price.

- The additional purchase price in the acquisition of AcuVitec Oy is deemed to have a fair value of SEK 45 494 thousand on March 31, 2015, compared with the liability's carrying value as at the same date amounted to SEK 45 801 thousand.
- The additional purchase price in the acquisition of Fox Publish AS is deemed to have a fair value of SEK 8 431 thousand on March 31, 2015, compared with the liability's carrying value as at the same date amounted to SEK 8 544 thousand.

Acquisition Fox Publish AS and ADservice Scandinavia AB

On March 2, 2015 Vitec acquired all the shares in Fox Publish AS and ADservice Scandinavia AB for a cash payment of NOK 13,8 million respectively SEK 400 thousand. The company develops and provides a publication system for real estate agents. Adservice Scandinavia is a sales company for the Swedish market. The companies are consolidated as of the acquisition date. The goodwill is not deductible for tax purposes and is considered to be attributable to the expected profitability, complementary expertise and synergies expected in the form of joint development of the Group's products. The acquisition increases Vitec's presence on the Norwegian software market. The maximum purchase price is NOK 21,8 million. The acquisition-related expenses amounted March 31 to SEK 114 thousand and are reported as other external costs of comprehensive income. From the acquisition date until March 31 the revenues amounts to SEK 2,8 million. If consolidation occurred at the beginning of the year, the companies had brought the Group an additional approximately 5.0 million in revenue. The following purchase price allocation is preliminary.

A SOFTWARE COMPANY IN GROWTH

VERTICAL MARKET SOFTWARE

Vitec is a software company that offers industry specific business solutions to the Nordic market. The company, with operations in Sweden, Norway, Finland and Denmark is growing in the mature part of the software industry by consolidating vertical software segments. Its clients include property management companies, construction and real estate companies, banks and insurance companies, energy companies, health companies, companies dealing with car parts and newspaper companies. Group turnover has an annual capacity of 575 million SEK and has approximately 400 employees. Vitec Software Group AB (publ.) is listed on Nasdaq OMX Stockholm.

Our mission is to provide industry-specific business solutions where our strategy is to focus on niches where there are needs that not as cost-effective can be met by general ERP-systems. In these niches we strive for a leading position. Our offer includes:

- proprietary software
- SaaS (Software as a Service), support and maintenance
- specialist services

The current market is made up to 55 % of Sweden, 19 % in Denmark, 14 % in Norway, 11 % of Finland.

LONG CUSTOMER RELATIONSHIPS

Vitec formed in 1985 and has since 1998 been a public company based on software solutions. With our products and related services, we act in the long term, build trust and create confidence among our customers. We create value for customers through a customer-focused approach and a well-tailored program offering that supports, develops and increases the profitability of our customers' daily work processes.

BUSINESS MODEL WITH RECURRING REVENUE

Recurring contract revenues are a central part of the Vitecs business model. Recurring contract revenue includes recurring revenues for the use of our software, access to our customer service and new refined versions of our software. Technology trend today is for a more modern model in which the functionality of the software is delivered over the Internet. This movement means that our offer is extended to include the operation of the software and the data storage. This increases the proportion of recurring revenue contracts, which gives us a stable, predictable and recurring revenue volume while providing our customers with a secure overall offering. A business model with a high proportion of recurring revenue also gives us a good annual operating capital and reduces sensitivity to economic downturns. High proportion of recurring revenue contracts also provide strong cash flows, which is an important prerequisite for continued growth.

PROFITABLE GROWTH

Vitec has a pronounced growth strategy with a combination of acquisitions and organic growth. Growth is important because it gives us energy and creates new opportunities. Acquisitions are also important to achieve cost and volume advantages and are also strategically important for the expansion to new markets and niches. Our acquisitions were initially made in Sweden in the niches in which we first appeared, but has gradually expanded to include new niches and new markets. Today we are a software company that offers specific business throughout the Nordic market and our business is established in Sweden, Norway, Finland and Denmark. We identify and evaluates acquisition targets in all Nordic countries. During our long history, we have been in constant growth and every year improved our results. We have, however, held fast to our strategy to operate within specialized software niches to create sustainable and profitable growth.
