

Ranplan is shifting to half-year reporting cycles

In pursuit of maximum operational efficiency, the Board of Directors of Ranplan Group AB has resolved that it is in the best interest of the Company to report its financial results on a half-year basis (aligned with requirements on First North).

This means that the next interim report will coincide with the release of the full-year results in February 2020 (exact date to be determined later). In lieu of a separate Q3 2019 report, previously scheduled for 20 November, the Company plans to publish a brief summary of its financial performance along with an operational update for the period July-September 2019 on the very same date.
