

## Interim update

Considering the current pipeline of activities, the Company expects that it will be able to register revenue growth (year-on-year) in the second half of the year. Advanced discussions proceed with existing and prospective customers in North America, Europe, China and many other parts of the world. Significant investments are made to further develop the organisation, strengthen sales and support, and expand the product portfolio with special attention paid to cloud-computing, open interfaces and close integration into network management systems
