

Nederman signs an agreement worth around SEK 30 million with one of Chinas largest automotive companies

Nederman has signed an agreement with one of Chinas largest automotive companies to supply complete solutions for dust collection. The agreement is worth around SEK 30 million.

The customer is one of Chinas largest passenger car and commercial truck manufacturer. The turn-key solution includes design, manufacturing and installation of Nederman dust collection systems to a new foundry factory. The systems and filters will be produced in the Nederman plant in Suzhou, China.

“We continue to focus on the Chinese market and once again we got proof on our competitiveness in solutions for creating eco-efficient production, this time in the automotive industry”, says Sven Kristensson, CEO of Nederman.

The order is booked in the fourth quarter and installation is planned to take place in the end of second quarter or beginning of the third quarter 2014.
