

#### Q4 and 2012 financial results

Investor presentation
Thursday, 14 February 2013

#### Health, safety and the working environment (HSE)

#### Lost-time injury (LTI) rate Number of lost time injuries per million hours worked

- Fatal accident in Road Maintenance (Industry)
- Our extensive HSE work includes <u>all</u> who have their place of work in Veidekke
- Higher number of injuries
- Sickness absence down in all countries, Norway from 5.6% to 4.9% in 2012

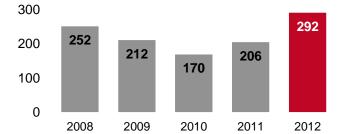

# Highlights Q4 2012

- Turnover up 8%, mainly in Norway
- Earnings before tax (EBT) of MNOK 292
  - Pension changes impact the result by MNOK 113
- Business areas
  - Higher profit margin for Construction
  - Strong performance in Property Norway
  - Disappointing result for Asphalt
- Stable order backlog, NOK 16.5 billion

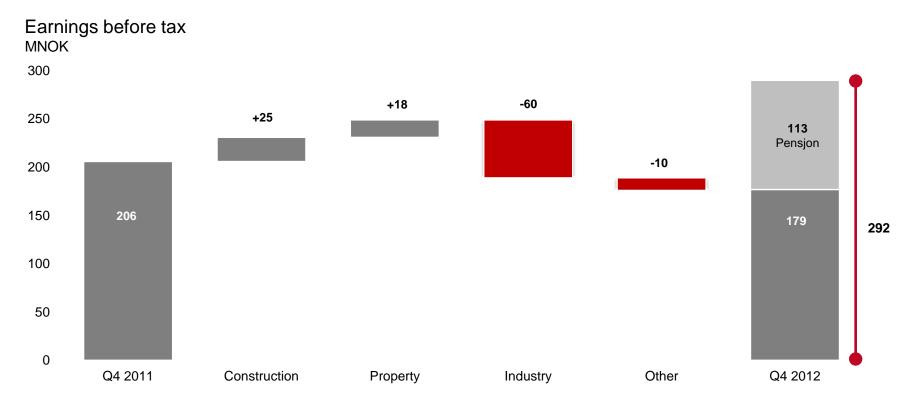

#### Operating revenue MNOK 1 000 6,0 5,6 4,5 5,1 4,4 4,4 4,1 3,0 1,5 0,0 2008 2009 2010 2011 2012

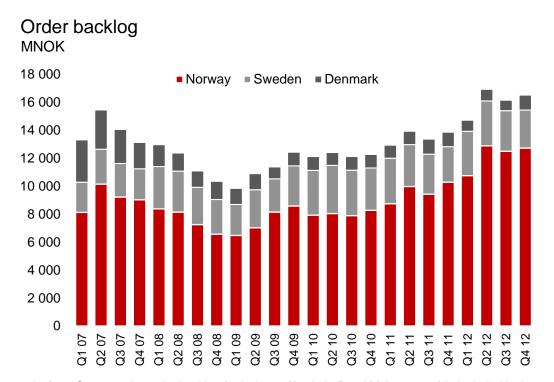

# Change in earnings before tax

### Order backlog

As from Q4 2011, the order backlog for Industry (Asphalt, Road Maintenance) is included in the figure for Norway. At Q4 2012, the figure was MNOK 1 511

- Order backlog up 13% in 2012
  - Improvement in Norway, mainly in first half
- Orders received in Q4
  - Several major heavy construction contracts in Norway and Sweden
  - Largest construction contracts signed:
    - Skillingsmyr, railway, MNOK 980
    - Ulricehamn Borås, highway, MNOK 500
    - Sartor, shopping centre in Bergen, MNOK 490

### Projects in progress

- Frederiksberg Centre
  - Shopping centre
  - MDKK 450
  - Completion: 2015

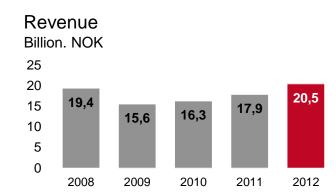

- Hamar Stadium
  - Shopping centre, nonresidential and residential, MNOK 900
  - Completion: 2014

- Dovre Railway Line
  - Highway and railway
  - MNOK 980 (Veidekke's share)
  - Completion: 2015

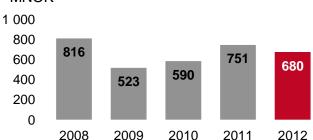

# Highlights 2012

- Operating revenues NOK 20.5 billion, 14% growth
- Earnings before tax of MNOK 680 (MNOK 751)
  - Profit margin, construction units 3.1% (2.1%)
  - Good results for Property Norway, weak in Sweden
  - Losses in Asphalt
- Earnings per share (IFRIC 15) NOK 3.4 (NOK 4.8)
- Expansion in line with the strategy in the run up to 2015
  - More focus on Property (property development)
  - Selective acquisitions, sales MNOK 400

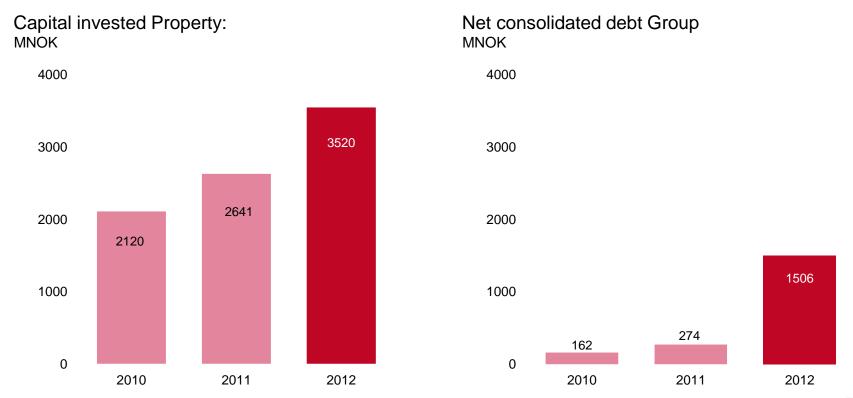

### Added focus on Property:

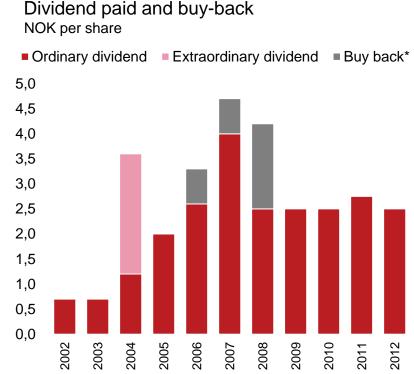

#### Financial situation

- Veidekke will remain a financially sound enterprise
  - Robust portfolio of assets (land, crushed stone and gravel deposits, etc.)
- Our rating objective is "investment grade"
  - BBB- from DNB (June 2012) and SEB (January 2013)
- NOK 1.1 billion in undrawn credit facilities at 31 December 2012
- Net debt of NOK 1.5 billion at 31 December 2012
  - Seasonally higher debt during the year
  - Net debt will be lower at 31 December 2013
  - Expecting positive cash flow from Property in 2013

#### Dividend

- Proposed dividend of NOK 2.50 (NOK 2.75)
- Dividend pay-out: 74% (57%)
- Dividend policy: Minimum 50% of EPS

\*NOK/shares outstanding

#### Veidekke Construction

- Veidekke's largest business area
- Includes both building and heavy construction operations
- Close collaboration internally, and with Property and Industry

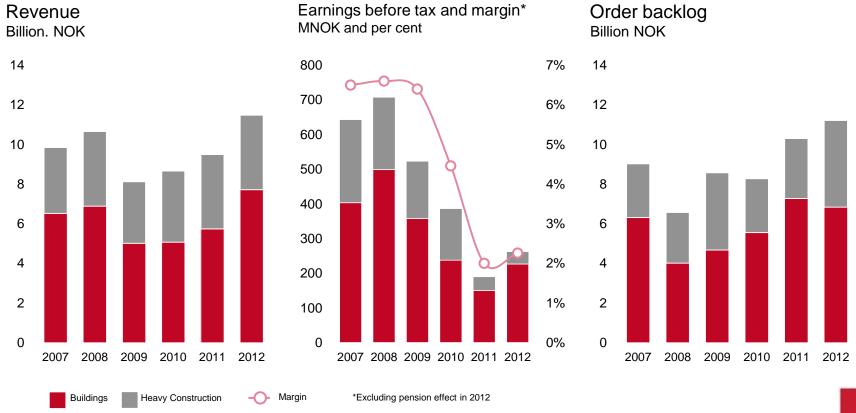

Hagebyen, Fornebu, Oslo

# **Construction Norway**

Dag Andresen, Managing Director, Veidekke Entreprenør

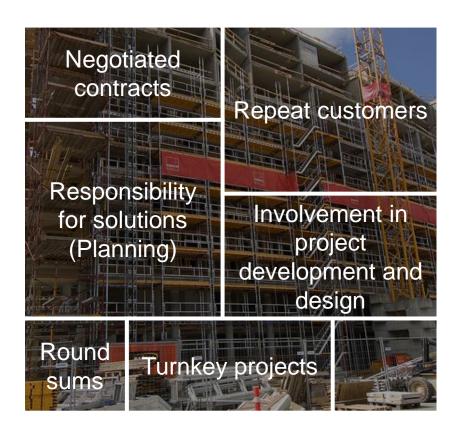

# Construction Norway: Financial history

# Differences between the building and heavy construction segments

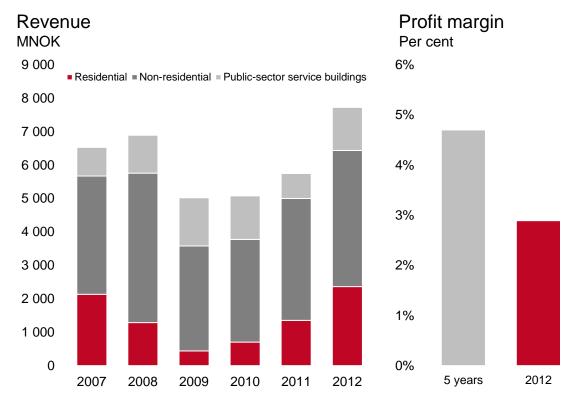

# Building segment: Residential and nonresidential buildings are drivers

#### Main characteristics

- Private-sector repeat customers and negotiated contracts
- Stable project profitability
- Housing market is sensitive to economic cycles

#### Our position

- Leading player in residential and nonresidential buildings
- In the process of strengthening the company's position in large commercial projects

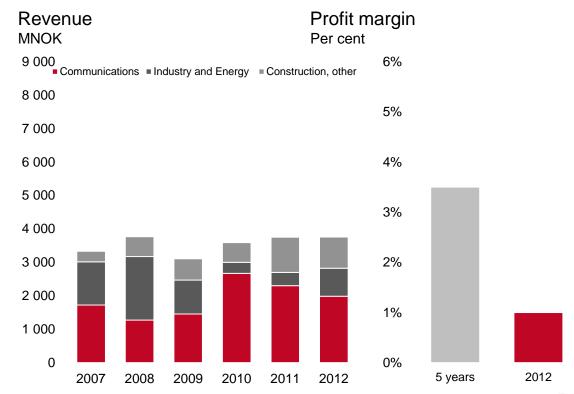

#### Heavy Construction: Changes in the project mix

#### Key features

- Public customers,
   Norwegian Public
   Roads Administration
- Variable project profitability
- The Industry market is sensitive to international economic trends

#### Our position

- Leading player in all segments
- Increase the share in Industry and Energy, and joint projects with building segment

# Objectives 2015

10-15% growth per year

■ 5% profit margin

Promote market growth

Win market shares

Pursue strategic plan

Make selective acquisitions

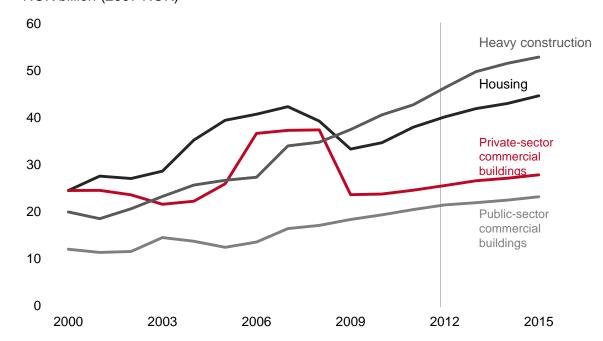

# The market in the run up to 2015

- Public investments
- Demography and income growth
- Economic slump in the Euro zone

- Increased investments in heavy construction
- Growth in housing, but pressures on costs
- Weaker progress in certain regions
- Keener international competition

# Strategic building blocks

1 Customers

#### The most satisfied customers

- Understand and meet customers' expectations and needs
- Create added value
- Be skilled manufacturers

2 Employees and suppliers

#### The most competent, motivated employees

- Full involvement
- Engage in active skills and systems development
- Develop along with selected suppliers

3 The world around us

#### Sustainable production

- Injury-free Veidekke
- Consider health, safety and the working environment in everything we do
- Best in respect of working environment in actual practice
- Seriousness

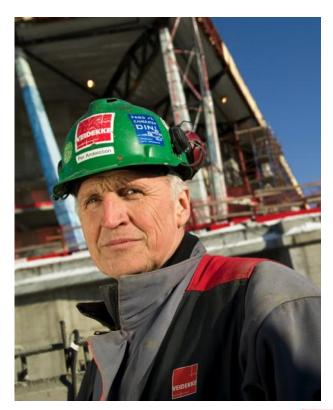

#### Best profitability

- Give priority to profitability before volume
- Focus on good priorities and tendering processes
- Close follow-up and control at all levels

### Expertise and improvement

- 3 558 employees
  - 270 graduate engineers and 525 engineers
  - 2 165 skilled workers
- Recruitment 2012
  - 179 more employees
  - 50 new trainees
  - 102 new apprentices
- Continuous human resources development
  - Lessons learned from projects
  - Veidekke School had more than 5 500 annual course days in 2012
- Veidekke is a leader in
  - BREEAM
  - BIM and VDC

### Best environmental practice

Bellona Building, Oslo

KLP Building, Trondheim

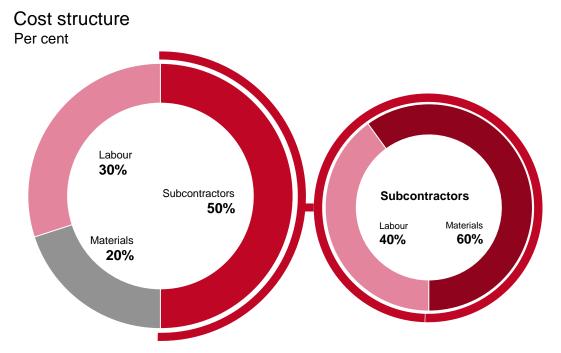

### Strategy for productivity and costs

- Productivity
  - Interactive planning
  - Continuity and regular teams
  - Professional pride
- Materials and subcontractors
  - Binding procurement strategy

# Binding procurement strategy

cost High Low cost

**45**% Technical disciplines **Excavation works** Concrete elements Structural steel work Laying reinforcement Landscape gardener **25**% 3

Low risk High risk

#### 1. Strategic deliveries

 Develop cooperation with selected suppliers

#### 2. Volume deliveries

 Cooperation agreements with suppliers (80-20)

#### 3. Critical deliveries

 Project procurements based on the districts' procurement guide

#### 4. Non-strategic deliveries

"Play the market"

### Efficient implementation

#### PROJECT PLANNING

- Project planning is a core area of expertise
- All parties are involved
- Growing use of BIM and VDC to ensure efficient processes

#### ON THE CONSTRUCTION SITE

- Integrated planning with subcontractors and employees
- Weekly plans for teams and individuals
- Obstacle analyses made to facilitate flow
- Modern, effective tools and techniques used in the ongoing planning for all disciplines

#### THE INDIVUDUAL SKILLED WORKER

- Ownership of common goals
- Expertise and motivation
- Optimal product for the customer
- Find the ingenious (often the simple) the solutions

"During a well-planned working day, I walk 5000 to 6000 steps. That can easily double if the planning is poor."

Svenn Are Leraand, carpenter with a pedometer

# Successful project

#### The right project

- Market strategy
- Create the right project mix in the light of the organisation's expertise and objectives

#### **Correct pricing**

- Each project is treated in a unique manner
- Implementation capacity
- The right cost price, risk and margin

#### **Good production**

- High performance team
- Good start-up processes
- Interactive planning
- Overview, management and control

#### Completion and hand over

- Satisfied customers and good delivery processes
- Lessons learned for the next project
- Good results, both financial and in terms of HSE

# Norway's best contractor

The most satisfied customers

The most competent, motivated co-workers

Injury-free production

Best profitability

Marienfryd, Ensjø

# Business areas

# Housing units under construction

Housing units under construction (Veidekke's share) Housing units

- 1 277 housing units under construction
  - Largest share in Norway (71%)
  - 80% sold
- 622 housing starts in 2012
  - 528 housing starts in Norway
- 152 housing starts in Q4
  - 125 housing starts in Norway
- Larger share of projects in partnerships in future

#### Collaboration with Alecta

- Rental properties as a new market segment for Property Sweden
- 50/50 collaboration with Alecta
  - Development and building of rental properties and residential properties
  - Opportunity to own and manage rental properties
  - Formalised through Convea AB
- Alecta is Sweden's largest life insurance company
  - Manages SEK 500 billion, of which SEK 14 billion in management property

# Industry operations

- Steep decline in profits for Asphalt
  - 10% decline in turnover
  - Price reductions in certain regions
  - Lay-off regulations and new hourly wage scheme
- Strong performance in the other two segments
  - Crushed Stone and Gravel
  - Road Maintenance

# Summary and the road ahead

Terje R. Venold, President and CEO

### In the run-up to 2015

- Operations strengthened in 2012
  - Targeted growth on turnover
  - Challenges to profitability in some units
  - Improved order backlog and land bank
- Continous human resources development
  - Recruitment
  - Training
  - Selective acquisitions
- Interactive planning creates value
  - Increased use of new technology in planning and production

### Expertice for the future

- Collaboration with Stanford University; digital tools (BIM) and work processes (VDC)
- Efficiency enhancement in the planning and building phase
- Stanford course for the third time, total 75 participants
- Open seminar for Industry in Trondheim with 250 participants

### Good competitiveness

#### **Positive earning capacity**

- Doing well in the building segment and Property in Norway
- Clear potential in Heavy Construction and Asphalt

#### **Strong platform**

- Healthy order backlog and robust land bank
- Market prerequisites present

### **Expertise and culture**

- Expertise and culture based on many years of experience
- Improved processes based on new technology

# Presentation 11 March 2013

Welcome back

Economic Activity Report FOR THE SCANDINAVIAN COUNTRIES

### Strategic summary

CONSTRUCTION More activity and good profitability in the building segment Good housing sales and high Low margins in Heavy Construction profitability Deficit in Asphalt 2012 Satisfactory margins, best in the Robust land bank Improvement in Road Maintenance Stockholm units Housing market hesitant and in Crushed Stone and Gravel Robust land bank Satisfactory profitability at lower volumes Smooth operations in the building segment Further development of project portfolio More selectivity in Heavy Construction New concept; low and close together 2013 Market adjustments and cost Demanding market in 2013 efficiency in Asphalt Long-term confidence in the market New concept; rental units Pursue the strategy for winning contracts on criteria other than price

<sup>\*</sup> In accordance with the segment reporting

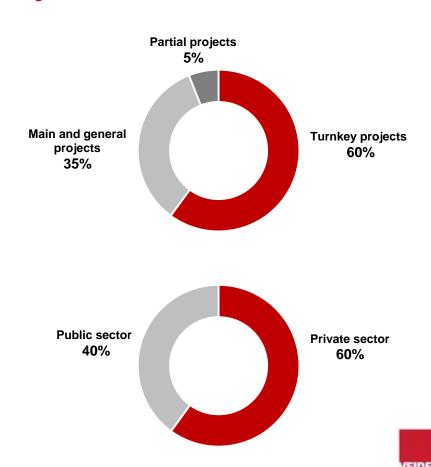

### Pension scheme in Norway

- Transition from defined benefit pension scheme to defined contribution pension scheme for employees under the age of 57 as of 31 December 2012
  - Veidekke has approximately 4 000 employees in its Norwegian operations
- Broad employee involvement in the process
- The new pension scheme will be attractive for the employees and financially viable for Veidekke
  - Accounting-related costs will be maintained at today's level (MNOK 145)
- Q4 2012: The transition will have a positive effect on earnings of MNOK 113
  - Effect on profit/loss account of MNOK 140 + recognised actuarial losses of MNOK 27
  - Construction Norway MNOK 94
- Q1 2013: New accounting principles (IFRS) for pension schemes
  - The recognised equity ratio at 1 January 2013 will be reduced by approximately MNOK 150
- Total effect of contribution-based pension scheme and implementation of new accounting principles for pensions: The equity ratio will be reduced by 0.5 per cent

## Construction Norway - customers

- Strong customer relations based on mutual transparency, confidence and respect
- Interactive planning is the key to success for all parties
- 80% of our sales are to repeat customers
- 80% of our building projects are turnkey projects
- **50%** of our external building projects are negotiated contracts

### Building and construction markets in Scandinavia

- Norway: Continued strong growth and a high level of activity
- Sweden: Zero growth in 2013, but at a high level
- Denmark: Continued low level of activity
