

Veoneer's JV Zenuity gets approval for hands-off self-driving tests on public roads in Sweden

Stockholm, Sweden, January 28, 2019: Veoneer, Inc.'s (NYSE: VNE and SSE: VNE SDB) joint-venture for advanced driver assistance systems (ADAS) and autonomous driving software, Zenuity, gets approval for self-driving tests on public roads in Sweden.

Transportstyrelsen, the Swedish Transport Agency, has approved that Zenuity, the joint venture between Veoneer and Volvo Cars, to do tests with self-driving cars on Swedish highways. The tests will be done by trained drivers, with their hands off the steering wheel at a maximum speed of 80 km/hour.

The routes that have been approved are E4 between Stockholm and Malmö, road 40 between Jönköping and Gothenburg, and E6 between Gothenburg and Malmö.

"The approval to do real-life tests is essential for gathering important data and test functions. It is a strong proof-point for the progress of Zenuity's self-driving capabilities," says Nishant Batra, Veoneer's Chief Technology Officer.
