CEO statement

"The Risk Intelligence growth plan is now starting to yield results. During the first quarter, due to a combination of increased new sales of licenses and services, and increasing recurring revenue, Risk Intelligence has increased its revenues with 78% in Q1 2019 (3,199,850 DKK) compared to Q1 2018 (1,801,599 DKK). Sales have been derived from both existing as well as new commercial and governmental clients. This is a strong signal that we are ahead of our growth plan and on the right path to deliver what we promised in connection with our IPO - to double our existing maritime market revenue from 2017 by 2020. "

Due to the growth plan investments and initiatives Risk Intelligence is still expecting negative results in 2019.
