

## Risk Intelligence A/S and a Lloyd's underwriting syndicate sign a deal for the Risk Intelligence System and bespoke intelligence support

**Risk Intelligence A/S ("Risk Intelligence" or "the Company") and Lloyd's underwriting syndicate have signed an agreement giving access to the Risk Intelligence System as well as bespoke operational intelligence support.**

The agreement will provide the company with access to the Risk Intelligence System (MaRisk and PortRisk), giving them access to the very best maritime intelligence available. This will assist them in writing cover for war risks and other challenging areas. Risk Intelligence will also provide bespoke reports and monthly security risk briefs to make sure the underwriting team have all the information they need, at all times.

**Jim Pascoe, CCO of Risk Intelligence says:**

*"This is a great addition to our strong book of insurance clients. In welcoming our new client on board, we will be providing our maritime intelligence right into the heart of marine underwriting. It's particularly pleasing as this was a very competitive process, and our previous delivery to this client secured Risk Intelligence the ongoing contract – once again proving the quality of our analysts and advisory teams. I am very much looking forward to working with our new client, assisting them as they challenge the traditional ways of dealing with war risk cover and books of business."*

**About Risk Intelligence**

Risk Intelligence is a security risk intelligence provider delivering security threat and risk analysis to clients all over the world via the cloud-based Risk Intelligence System, as well as consulting services. A large part of Risk Intelligence's clients is maritime, and these clients currently operate more than 15.4% of the global merchant fleet.

With its headquarters in Hellerup (Copenhagen), Denmark, an office in Singapore, and locations in North America, the dedicated staff of Risk Intelligence works in all major time zones to support their clients' operations. Since 2018, the company has been listed on the Spotlight Stock Exchange in Stockholm.

The Risk Intelligence System is a digital security intelligence solution developed in close collaboration with global businesses that are established within the fields of shipping, offshore, oil and gas. The digital solution is designed based on insights directly from customers and their needs as well as Risk Intelligence's experienced security risk analysts and developers' knowledge of intelligence and assessment needs.

The Risk Intelligence System offers clients a complete picture of immediate, short-, and medium-term security risks for coastal areas, ocean, port, and landside threats. The analysis is focused on insurgency, piracy, organised crime, activism, terrorism, military conflicts, and any interplay between these. Risk Intelligence identifies where serious events arise and presents an assessment of how great the threat is in each area, while at the same time providing 24/7/365 situational awareness with incident reports and alerts. This enables companies to evaluate both current and future security risks in real time and to minimise risks across their operations.

**Risk Intelligence A/S** was founded in 2001 by Hans Tino Hansen. The company has evolved to become a prominent company in security risk management by delivering threat and risk assessments worldwide. Risk Intelligence operates and assists customers and partners from headquarters located north of Copenhagen, the office in Singapore as well as through representatives in Europe, Asia and North America. The business model is designed with international scalability in mind and the company is globally regarded as an expert in its field. Risk Intelligence's core product is the 'Risk Intelligence System (MaRisk + PortRisk + LandRisk)', a digital solution that allows clients to monitor global security risks and enables them to plan and implement missions in risk areas. Risk Intelligence is listed on the Spotlight Stock market [RISK].
