

## Risk Intelligence A/S widens its management team to strengthen strategy implementation

Risk Intelligence A/S ("Risk Intelligence" or the "Company") announces today that the company, in order to improve the company focus on implementing the new 2025 Strategy, is making changes to its management team and increasing the team by one new member.

The current Chief Operating Officer (COO), Henrik Ehlers Kragh, is stepping into a new role as Senior Director and Head of Strategy Implementation and will be heading the implementation of the 2025 Strategy, which will improve how we do business and increase the likelihood of meeting the milestones set out in the strategy. The position as COO will be filled by Risk Intelligence's current Head of Operations, Niels Worsøe, who with the promotion will take over responsibility for all production within Risk Intelligence and become a member of the management team. Both changes take effect as of 1 April 2023.

### CEO of Risk Intelligence, Hans Tino Hansen, says:

*"It has become apparent that we need resources and more "engine power" to implement our new strategy. I am very pleased that we have been able to reorganise and optimise our existing resources in a way that gives us the best possible capability for strategy implementation, while getting a highly competent replacement within operations. Henrik has done a second-to-none job in taking Operations to its current level and has played a key part in developing the new strategy. I am pleased that he will take on the important task of heading its implementation. Niels has been seconding Henrik since 2019 and has grown in the role and is ready to make take over Operations as new COO and I am pleased that he has accepted the new task. With this team in place, I am confident that we are well-placed to implement the strategy in a year with several large commercial and development initiatives."*

**Risk Intelligence A/S** was founded in 2001 by Hans Tino Hansen. The company has evolved to become a prominent company in security risk management by delivering threat and risk assessments worldwide. Risk Intelligence operates and assists customers and partners from headquarters located north of Copenhagen, the office in Singapore as well as through representatives in Europe, Asia and North America. The business model is designed with international scalability in mind and the company is globally regarded as an expert in its field. Risk Intelligence's core product is the 'Risk Intelligence System (MaRisk + PortRisk + LandRisk)', a digital solution that allows clients to monitor global security risks and enables them to plan and implement missions in risk areas. Risk Intelligence is listed on the Spotlight Stock market [RISK].
