

Risk Intelligence A/S license agreement with US government client terminated

Risk Intelligence A/S ("Risk Intelligence" or "the Company") announces that a significant license agreement for the Risk Intelligence System has been terminated by a US government client ("The Client").

The license agreement has effectively been terminated as of 30 September. It is currently unknown whether the license may be re-entered by the Client during the new US financial year starting 1 October 2025.

The termination will have an impact on Q3 invoiced revenue as well as ARR and recognised revenue from Q4. It is assessed that growth both within Government & Defence and in other business areas will more than compensate for the loss of the license agreement during the upcoming quarters.
