

## Risk Intelligence A/S signs agreements with two European government clients for the Risk Intelligence System

**Risk Intelligence A/S ("Risk Intelligence" or "the Company") has signed agreements with two European government clients ("the Clients") for the Risk Intelligence System**

The Clients have signed up for the Risk Intelligence System during end-January and early-February. One Client previously had a license for the Risk Intelligence System but had to terminate the license end-2024 and has now returned to Risk Intelligence.

With the Risk Intelligence System, the Clients will have access to credible security intelligence to monitor the geopolitical impact on maritime security as well as geographical areas of the world and types of threats that are less covered by their existing sources.

**Hans Tino Hansen, CEO of Risk Intelligence says:**

*"I would like to welcome the new clients to Risk Intelligence and it is a pleasure to see one former client returning after one year's absence. In addition, it is positive to sign the agreement with the second new client as this also is part of a cooperation in relation to protection of critical maritime infrastructure. The two new agreements signal a good start of the year for Risk Intelligence and specifically for the Government & Defence business segment."*

The Risk Intelligence System licenses will impact ARR from Q1 2026.

### **About Risk Intelligence**

Risk Intelligence is a security risk intelligence provider delivering security threat and risk analysis to clients all over the world via the cloud-based Risk Intelligence System, as well as consulting services. A large part of Risk Intelligence's clients is maritime, and these clients currently operate more than 16% of the global merchant fleet.

With its headquarters in Hellerup (Copenhagen), Denmark, an office in Singapore, and locations in North America, the dedicated staff of Risk Intelligence works in all major time zones to support their clients' operations. Since 2018, the company has been listed on the Spotlight Stock Exchange in Stockholm.

The Risk Intelligence System is a digital security intelligence solution developed in close collaboration with global businesses that are established within the fields of shipping, offshore, oil and gas. The digital solution is designed based on insights directly from customers and their needs as well as Risk Intelligence's experienced security risk analysts and developers' knowledge of intelligence and assessment needs.

The Risk Intelligence System offers clients a complete picture of immediate, short-, and medium-term security risks for coastal areas, ocean, port, and landside threats. The analysis is focused on insurgency, piracy, organised crime, activism, terrorism, military conflicts, and any interplay between these. Risk Intelligence identifies where serious events arise and presents an assessment of how great the threat is in each area, while at the same time providing 24/7/365 situational awareness with incident reports and alerts. This enables companies to evaluate both current and future security risks in real time and to minimise risks across their operations.

### **Disclaimer:**

Risk Intelligence typically uses press releases to announce new clients or significant expansions of existing client contracts, in accordance with the wishes of those clients. However, there may be other business deals that Risk Intelligence chooses not to or cannot disclose through press releases. All deals classified as MAR will always be announced through press releases.

---

**Risk Intelligence A/S** was founded in 2001 by Hans Tino Hansen. The company has evolved to become a prominent company in security risk management by delivering threat and risk assessments worldwide. Risk Intelligence operates and assists customers and partners from headquarters located in Hellerup north of Copenhagen, the office in Singapore as well as through analysts and representatives in Europe, Asia and North America. The business model is designed with international scalability in mind and the company is globally regarded as a specialist in its field. Risk Intelligence's core product is the Risk Intelligence System, a digital solution that allows clients to monitor global security risks and enables them to plan and implement missions in risk areas. Risk Intelligence is listed on the Spotlight Stock market [RISK].
