## **MRSI Systems welcomes Hendry He as China Country Sales Director**

MRSI Systems (Mycronic Group) is pleased to announce our new China Country Sales Director, Hendry He. He will be working alongside the existing sales team and representatives in the region and is based in Shanghai. His substantial technical experience selling semiconductor equipment along with his vast network in the Chinese market is guaranteed to even further enhance our responsiveness to our customer's needs.

MRSI is expanding globally in the die bonding market with the support of our Swedish parent company, Mycronic. Hendry is joining the team at a busy and exciting time for MRSI, as our growth continues. "Joining a market leader that continues to adapt to the changing needs of its customers through significant new product launches is a great opportunity," said Hendry He.

Hendry spent the past 18 years working in the microelectronics/optoelectronics industry including advanced photonics holding senior positions in the areas of sales management, technical service, and process engineering at First Technology, a subsidiary of Sojitz Group, Plasmatreat Trading Shanghai Co., Ltd, ASM Pacific, Shanghai, and Vishay Passive Components, Shanghai Co., Ltd.

"Hendry will be an asset to the MRSI team. He has a deep understanding of automation and broad exposure to multiple market applications," said Daniel Crowley, Vice President of Sales, MRSI Systems.

### **About MRSI Systems**

MRSI Systems, part of Mycronic Group, is the leading manufacturer of fully automated, high-speed, high-precision and flexible eutectic and epoxy die bonding systems. We offer "one-stop-shop" solutions for research and development, low-to-medium volume production, and high volume manufacturing of photonic devices such as lasers, detectors, modulators, AOCs, WDM/EML TO-Cans, Optical transceivers, LiDAR, VR/AR, sensors, and optical imaging products. With 30+ years of industry experience and our worldwide local technical support team, we provide the most effective systems and assembly solutions for all packaging levels including chip-on-wafer (CoW), chip-on- carrier (CoC), PCB, and gold-box packaging.
