Fiskars provides preliminary information for 2020

As the year 2020 has been highly volatile due to the COVID-19 pandemic, Fiskars Corporation provides preliminary information on figures for 2020. The year ended in accordance with the Company's expectation. Net sales is expected to be approximately EUR 1,116 million (2019: 1,090.4), comparable EBITA approximately EUR 137 million (90.6) and operating profit (EBIT) approximately EUR 98 million (60.1). The figures are based on preliminary, unaudited information.

"The fourth quarter of the year is seasonally the most important one in terms of full-year profitability. We succeeded well in our execution, despite the pandemic-related store closures and lockdowns in many of our key markets", said Nathalie Ahlström, President & CEO of Fiskars.

The company reinstated the guidance for 2020 on October 13 and expected the comparable EBITA to increase from 2019. In 2019, the comparable EBITA was EUR 90.6 million.

Fiskars will publish the Financial Statement Release for 2020 on February 5, 2021.
