

Integrum AB appoints Magnus Lindholm M.Sc., Mechanical Engineering, as R&D Manager.

Integrum, a leading provider of innovative solutions for bone-anchored prosthetics announces the appointment of Magnus Lindholm as Manager of the Research and Development department.

Magnus has joined Integrum with more than 20 years of experience within Research and Development from several different industries, and since 2007, his focus has been the Healthcare sector. As Global Project Manager at Mölnlycke Health Care, he led teams in launch projects within the Wound Care area; taking products from early concept to market launch.

As Manager for the R&D team at Integrum, Magnus will be instrumental in driving ongoing R&D initiatives, as well as laying the foundation for, and leading, future

research and development projects, ensuring continued dramatic growth through the expansion of Integrum's product portfolio.

Says Maria Lopez, CEO at Integrum "we are very pleased that Magnus has joined the team at Integrum, and we are convinced that his extensive experience in leading developmental project teams will make a significant contribution to Integrum's continued growth and success".

Magnus joined Integrum on June 21st.

About Integrum

Integrum AB is a publicly-traded company (INTEG B: Nasdaq First North exchange) based outside of Gothenburg, Sweden, with a US subsidiary in San Francisco, CA. Since 1990, osseointegration, the science behind the OPRA™ Implant System, has been helping individuals with amputations enjoy a dramatically improved quality of life. Thorough surgical experience gained over more than three decades, from 500 surgeries, in 14 countries, has led to the development of Integrum's system for bone-anchored prostheses – a vastly superior alternative to the traditionally used socket prosthesis.

The OPRA™ Implant System is the only FDA approved medical device for above-knee, bone-anchored prosthetics available in the US. More information on the company and its innovative solutions for amputees can be found at www.integrum.se.
