

PRESS RELEASE 2018-12-21

## **GWS and Expat Preventive sign long-term partnership agreement**

GWS Production AB, Sweden and Expat Preventive in Netherlands, have signed an agreement, in order to provide the market with the best solution for travel risk management.

GWS will provide the technical platform and Expat Preventive the travel security, medical advice and assistance.

GWS is an international IT-company and has developed Safeture, a security platform and a risk management tool for companies and business travelers. The platform is already used globally by more than 1,000 major companies.

Expat Preventive helps companies, government institutions and non-profit organizations that put the safety of their employees first with intensive safety and security training, developing a well-suited policy and direct support after an incident.

The cooperation between GWS and Expat Preventive will enable customers to fulfil their Duty of Care in the most modern way and their task to advise and support travellers and expats before, during and after their travels or stay abroad.

The travel security platform from GWS with country information and alerts, positioning and mass notification functionalities will, together with Expat Preventive security training, medical advice, emergency numbers and aftercare will be the new standard in the market.

“In GWS we have found a highly reliable partner for a next generation travel security platform “, comments Christiaan Oldenkamp, CEO Expat Preventive.

“We are process and behaviour specialists in travel security that need a technology expert and we believe that in this partnership we can complement each other to deliver the best one stop shop solution for our customers”.

“Expat Preventive is a good match for GWS. Expat Preventives expert knowledge in implementing security processes is key when integrating our platform into larger organizations security routines.” comments Andreas Rodman, CEO GWS.
