

Safeture speeds up crisis response with “Safety Check”

Safeture, the global leader in people risk management solutions, today announced the launch of Safety Check, a groundbreaking feature now available on the Safeture platform. Designed to empower organizations during critical incidents, Safety Check enables faster, more effective responses by combining rapid outreach with streamlined case management.

Stay in Control During Disruptive Events

Safety Check provides organizations with instant clarity when it matters most. Whether they are facing natural disasters, security threats, or other disruptive events, security and assistance teams can quickly determine who is safe, who needs help, and how best to allocate resources.

Key capabilities include:

- **Manual or automatic initiation** of Safety Checks, directly from alerts, the Facilities module, or the Security Overview.
- **Multi-channel communication** via SMS, email, app notifications, and voice calls.
- **Real-time response collection** to identify safe individuals and those requiring support.
- **Dynamic status tracking** and updates as situations evolve.
- **Comprehensive documentation** with individual and overall notes, ensuring a complete incident overview.

Two Packages to Fit Every Need

Safety Check is available in two distinct packages:

- **BASIC:** A practical, manual tool for organizations seeking a straightforward solution during disruptive events.
- **PREMIUM:** Designed for organizations with higher compliance demands, offering automation, voice communication, and advanced reporting.

A Clear, Efficient Way to Protect Employees

“Safety Check gives organizations a clear, efficient way to reach their people when it matters most,” said **Jonas Bjurhult, Chief Product Officer at Safeture**. “It reduces uncertainty, saves time, and strengthens the ability to protect employees during critical incidents.”

Availability

Safety Check is available immediately to all Safeture platform users. Organizations interested in exploring how Safety Check can support their risk management strategies are encouraged to contact the Safeture Client Development team at clientdevelopment@safeture.com.
