

Archer

Archer has been awarded the Fishing, Milling & Wellbore Cleaning services for Repsol Norge on the Gyda Platform

Archer is proud to announce that we have been awarded the Fishing, Milling & Wellbore Cleaning services for Repsol Norge on the Gyda Platform when the operations starts in January 2021. This makes Archer the sole provider of all downhole services on the Gyda P&A Campaign with a scope of 14 wells left to plug & abandon. The award is a result of an innovative integrated **OneArcher** approach were we have turned the industry challenges into a significant opportunity and thereby maximizing both the savings for the client and activity level for OneArcher.

"This award shows that when we work together as OneArcher, we can offer optimal solutions for our clients and shape our own future" says Thore Andre Stokkeland, Archer Oiltools, and Tom Aune, Archer Platform Drilling.
