Comintelli Achieves ISO 27001 Certification for Information Security

Comintelli, a leading provider of software for Market and Competitive Intelligence, proudly announces that the company has been certified under ISO/IEC 27001, the internationally recognized standard for information security management systems (ISMS).

This certification demonstrates Comintelli's long-standing commitment to protecting customer data at the highest level and confirms that its security practices meet strict international requirements.

ISO/IEC 27001 defines best practices for establishing, implementing, and continuously improving an ISMS. It ensures that organizations take a systematic approach to identifying, managing, and safeguarding sensitive information – focusing on people, processes, and technology.

"Information security has always been fundamental to our business and to the trust our customers place in us," said Jesper Martell, CEO of Comintelli. "Achieving ISO 27001 certification formalizes this commitment and highlights that our solutions meet globally recognized standards for data protection. At a time when data integrity and confidentiality are more critical than ever, this milestone is a strong reassurance that customers can rely on Comintelli."

With this certification, Comintelli strengthens its SaaS-based platform Intelligence2day® as a reliable and future-proof solution for Market and Competitive Intelligence. Customers worldwide can rest assured that their information is managed in compliance with internationally recognized security protocols and industry best practices.
