Cortopia Studios and Devolver Digital Secure USD 1 Million in Project Funding to Advance Ongoing Development of GORN 2

Today, Beyond Frames Entertainment announced that its wholly owned studio, Cortopia Studios, and Devolver Digital have secured approximately USD 1 million in project funding from an undisclosed external party for the continued development of downloadable content (DLC) for *GORN 2*, the hit sequel to the original VR cult phenomenon *GORN*.

This strategic funding is designed to accelerate production of new content expansions, seasonal updates, and feature enhancements that will further stimulate the strong, ongoing sales performance of *GORN 2*.

"This funding represents a strong vote of confidence in both *GORN 2*'s continued commercial trajectory and the creative talent at Cortopia Studios," said Ace St. Germain, CEO of Beyond Frames Entertainment.

Beyond Frames confirmed that this new funding arrangement will not affect the existing recoupment structure or financial obligations owed to *GORN 2*'s publisher, Devolver Digital. The allocation is structured to complement current publishing agreements while providing additional resources for sustained content development.

Since its release, *GORN 2* has maintained strong sales momentum and a highly active player community. The new investment will allow Cortopia Studios to expand its creative roadmap with multiple DLC updates scheduled through 2026.
