Cortopia Studios Announces Major Winter Content Update for GORN 2

Yesterday, Cortopia Studios, a Beyond Frames Entertainment subsidiary, in partnership with Devolver Digital and Free Lives, announced the release of *Dungeon Brawler*, a major free content update for *GORN 2*. The update is now available on Meta Quest, PlayStation VR2, and SteamVR platforms.

The *Dungeon Brawler* update significantly expands *GORN 2*'s gameplay offering by introducing a new dungeon-based game mode that complements the title's established arena combat. Players explore randomly generated dungeons composed of 25 unique rooms, featuring environmental hazards, traps, and a wide range of enemies, enhancing both replayability and long-term player engagement.

In addition to the new dungeon crawler mode, the update delivers a suite of winter-themed gameplay mechanics and content, including freezing effects on enemies, slippery floor dynamics, new environmental hazards, and an expanded arsenal of themed weapons such as hockey sticks, icicle swords, ice arrows, and additional cold-inspired equipment. The update also introduces a new jump mechanic, adding verticality and further tactical depth to combat encounters.

"With the *Dungeon Brawler* update, *GORN 2* continues to evolve as a live VR title through meaningful gameplay expansions that extend player retention and engagement across platforms," said Ace St. Germain, CEO of Beyond Frames Entertainment.
