

Industrial Solar GmbH ISO 9001 certified

Industrial Solar GmbH, a 100% subsidiary of Clean Industry Solutions Holding Europe AB, has announced that it has achieved ISO 9001 Certification from the Certification Body of TÜV SÜD Management Service GmbH. ISO 9001 is the internationally recognized standard for a quality management system (QMS). This enables companies to operate more effectively on several different levels, including the ability to focus on customer requirements and constantly finding ways in which to improve and become resilient and sustainable.

Amid the ongoing pandemic situation, which exposes many companies to stress as well as restrictions, Industrial Solar GmbH successfully conducted the process of the ISO certification. As of March 17, 2021, the company is certified according to ISO 9001:2015 - the international standard for quality management system requirements. The Certification Body of TÜV SÜD Management Service GmbH certified that Industrial Solar had established and is applying a quality management system for the development and distribution of customized carbon-neutral energy solutions for industrial customers.

Christian Zahler, CEO of CISH AB, stated: "Achieving ISO 9001:2015 certification is an important step for Industrial Solar and contributes to the company's goal of being a leading provider of carbon-neutral energy solutions on a global scale. This certification is a reflection of Industrial Solar's commitment to quality and to embracing and adhering to recognized international standards."
