Important events

- In February 2015 Aibel was awarded a new construction contract for the Johan Sverdrup field. The contract is worth approximately NOK 8 billion and includes engineering, procurement and construction of a new drilling platform. The work will start immediately with scheduled completion in 2018
- In April, Ratos signed an agreement on the sale of the subsidiary Nordic Cinema Group, the leading cinema operator in the Nordic and Baltic regions, to Bridgepoint. The enterprise value amounts to approximately SEK 4,700m and Ratos will receive approximately SEK 1,700m for its shareholding. The sale generates an exit gain of approximately SEK 900m and an average annual return (IRR) of approximately 42%. The sale is subject to approval from the relevant authorities and is expected to be completed in the summer
- In April, Ratos sold 20.9% of the total number of shares in Inwido AB (publ). The sale was made at a price of SEK 91 per share, a total of approximately SEK 1,103m, and provides an exit gain of approximately SEK 230m. Following the sale, Ratos owns 10.4% of the shares in Inwido
- A capital contribution was provided to Jøtul totalling SEK 37m in the first quarter and a total of SEK 20m to Euromaint in April. HENT repaid Ratos's shareholder loan of approximately NOK 47m during the first quarter

Strong start to 2015

The start of 2015 was strong for Ratos. The holdings report a good first quarter with an increase in adjusted operating profit of 35% due to completed growth and efficiency improvement initiatives as well as to some extent positive currency effects. However, the first quarter is the smallest for Ratos's companies in terms of earnings and it is therefore difficult to draw far-reaching conclusions from this. Nevertheless it is gratifying that so many of our companies are showing a positive trend and made a strong start to the year.

On the transaction side the year also started at a fast pace. Naturally the highlight is last week's agreement on the sale of Nordic Cinema Group, the leading cinema group in the Nordic region that Ratos has helped to create and which provided an average annual return, IRR, of an excellent 42% and an estimated exit gain of approximately SEK 900m. Last week we also sold part of our holding in Inwido, a divestment that was made possible by a continued strong operational development in the company and good price development for Inwido's shares.

Stable market in the first quarter

There is still no clear market picture for Ratos's holdings. Most markets were stable in the first quarter compared with the end of 2014. We can see a continued positive market development for some holdings, including DIAB, where above all the wind energy market is stronger, and for Mobile Climate Control where there was a higher level of activity in the bus market in both North America and Europe. Some markets also saw weaker development which had a negative impact on us, for example HL Display which was affected by weaker sales primarily to the retail sector in the UK.

Strong start for the holdings in 2015

We continue to see the effects of growth and efficiency improvement initiatives in the holdings in recent years and this is very positive. Value creation initiatives in our companies are, and will always be, our main focus. Our companies normally undergo major journeys of change during Ratos's ownership.

The first quarter showed a strong earnings trend in the holdings, with an adjusted operating profit (EBITA adjusted for items affecting comparability) which increased by 35% with reported EBITA up 53%. Positive currency effects are assessed as accounting for approximately one-quarter of this improvement with operational improvements accounting for the remainder. It is important to note that the first quarter is the smallest for Ratos's portfolio in terms of earnings. In 2014 for example our holdings had about 15% of their overall operating profit in the first quarter and change figures are therefore highly volatile. The performance of Ratos's holdings should always be viewed over time and not just in individual quarters.

Among the companies that stand out with a very strong start to the year we have DIAB, where rising volumes and gains in market share, combined with higher internal efficiency and positive currency effects, provided positive earnings for the

quarter. It is gratifying to note that DIAB is now back on track after the tough restructuring that started in 2012.

Mobile Climate Control (MCC) also had a strong start to the year. This is a result of determined efforts with product development and customer cultivation which is now paying off since MCC has won a couple of key breakthrough orders from strategic customers at the same time as both the bus and off-road vehicle segments are showing some growth.

Other companies which had a strong start to the year include recently acquired Ledil, which continues its fast growth with good profitability. Nordic Cinema Group which reports good admission numbers and key figures, HENT which continues to deliver and Inwido which is showing good profitability growth.

It is very gratifying that during the quarter the oil service company Aibel was awarded a large and strategically important contract worth approximately NOK 8 billion for new construction of a platform for the Johan Sverdrup field. The project will run in 2015-2018. The hard work carried out by Aibel over the past year to adapt its cost structure, improve productivity and make processes more efficient in close cooperation with its customers has yielded results in the form of increased competitiveness. Work at Sverdrup has started but the earnings impact will not be seen until after 2015. The level of activity in Aibel's other business area, maintenance, continues to be under pressure and additional minor cost adjustments will be made.

We also have an increased focus on efficiency improvement measures and cost adjustments in HL Display and Jøtul, both of which are affected by a weak market.

Two exits in April

The level of activity in the transaction market remains high and this also applies to Ratos.

Last week Ratos signed an agreement on the sale of Nordic Cinema Group (NCG) to Bridgepoint. NCG was formed when Ratos and Bonnier merged Finnkino and SF Bio and is today the leading Nordic cinema operator. Under our ownership the company considerably strengthened its strategic position and has excellent prospects going forward. The enterprise value for NCG amounts to approximately SEK 4,700m and Ratos will receive approximately SEK 1,700m for its shares which generates an exit gain of approximately SEK 900m and an average annual return of approximately 42%, which is a very good deal for Ratos! The transaction is expected to be completed in the summer and is subject to approval from the relevant authorities.

In the same week we also made a partial sale of Ratos's shares in Inwido through a placement of approximately 21% of Inwido. The placement was made to Swedish and international institutional investors, the selling price amounts to approximately SEK 1,103m and provides an exit gain for Ratos of approximately SEK 230m. The sale was made possible by Inwido's impressive growth journey during Ratos's just over ten years as owner as well as the company's positive performance since the IPO in autumn 2014.

We continue to work hard to find attractive acquisitions. This is more challenging in an environment with a strong

transaction market which means it requires more effort and proactivity. Despite our substantial cash, approximately SEK 4.8 billion after the agreed transactions have been completed, it remains extremely important to keep a cool head.

Unchanged view of 2015

The first quarter generally developed as expected for our holdings. Our cautious macroeconomic view for the full year 2015 remains unchanged and we expect a continued shifting market scenario where most markets are stable but overall heading in the right direction. The transaction market will remain strong which provides both opportunities and challenges. For the portfolio of companies we owned at the end of the first quarter, our overall assessment is still conditions exist for a higher operating profit (adjusted for the size of Ratos's holdings) in 2015.

Income and expenses in the parent company and central companies

Ratos's central income and expenses amounted to SEK -69m (-18), of which personnel costs in the parent company amounted to SEK 29m (28). The variable portion of personnel costs amounted to SEK 6m (4). Other management costs were SEK 37m (18), the increase was due to higher transaction-related costs. Net financial items amounted to SEK -3m (+28).

Tax

Ratos's consolidated tax expense comprises subsidiaries' and Ratos's share of tax in associates. The tax rate in the consolidated income statement is affected, among other things, by the parent company's investment company status and by capital gains not liable to tax.

Financial position

Cash flow from operating activities and investing activities was SEK -161m (-531) and consolidated cash and cash equivalents at the end of the period amounted to SEK 5,132m (3,486). Interest-bearing liabilities including pension provisions amounted to SEK 11,288m (13,656).

Parent company

The parent company's loss before tax amounted to SEK 65m (+13). The parent company's cash and cash equivalents amounted to SEK 3,122m (1,468). Taking into account the dividend paid, totalling SEK 1,037m, on A and B shares as well as transactions agreed after the end of the period, at 7 May 2015 Ratos had a net liquidity of approximately SEK 4.8 billion. In addition, there is a credit facility of SEK 2.2 billion, authorisation from the 2015 Annual General Meeting to issue a maximum of 35 million Ratos B shares in conjunction with agreements on acquisitions and an authorisation to issue a maximum total of 1,250,000 Class C and/or Class D preference shares in conjunction with acquisitions.

Risks and uncertainties

Ratos invests in and develops unlisted companies in the Nordic region. These operations include inherent risks attributable to both Ratos and the holdings. These mainly comprise market, operational and transaction risks and can include both general risks, such as external factors and macroeconomic development, as well as company- and sector-specific risks. Ratos's future earnings development is dependent to a large extent on the success and returns of the underlying holdings which is also dependent, among other things, on how successful those responsible for the investments and each holding's management group and board are at developing and implementing value-enhancing initiatives.

Ratos is also exposed to various types of financial risks, primarily related to loans, trade receivables, trade payables and derivative instruments. The financial risks consist of financing risks, interest rate risks, credit risks and currency risks.

It is also essential that Ratos has the ability to attract and retain employees with the right skills and experience.

A more detailed description of the material risks and uncertainties to which the Group and the parent company are exposed is provided in the Directors' report and in Notes 30 and 37 in the 2014 Annual Report. An assessment for the coming months is provided in the *CEO comments on performance in the first quarter* on pages 3-4.

Ratos B shares

Earnings per share before dilution amounted to SEK -0.14 (-0.25). Total return on B shares in the first quarter of 2015 amounted to +26%, compared with the performance for the SIX Return Index which was +16%.

Ratos preference shares

The closing price for Ratos's Class C preference shares on 31 March was SEK 1,957. The dividend is regulated by the Articles of Association and amounts to SEK 100 per year and is paid quarterly in February, May, August and November. Redemption can take place following a decision by the Board in an amount of SEK 2,012.50 (corresponding to 115% of the subscription price) until the 2017 Annual General Meeting, subsequently redemption will take place in an amount of SEK 1,837.50 (corresponding to 105% of the subscription price). A dividend with record date 13 February 2015 was paid on 18 February 2015 totalling SEK 21m.

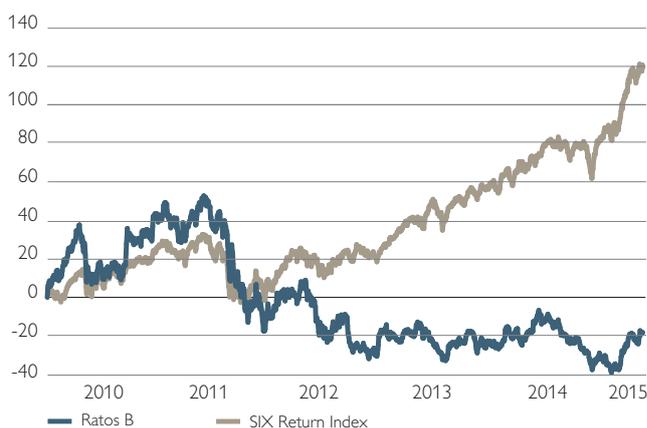

Treasury shares and number of shares

No shares were repurchased and no call options were exercised in the first quarter of 2015. 3,501 shares were transferred to administrative employees in accordance with an Annual General Meeting resolution. At the end of March, Ratos owned 5,127,606 B shares (corresponding to 1.6% of the total number of shares), repurchased at an average price of SEK 69.

At 31 March the total number of shares in Ratos (A and B shares as well as preference shares) amounted to 324,970,896 and the number of votes was 108,670,443.6. The number of outstanding A and B shares was 319,013,290 and the number of outstanding preference shares 830,000. The average number of B treasury shares in Ratos in the first quarter of 2015 was 5,115,766 (5,131,770 in the full year 2014).

²⁾ Equity attributable to owners of the parent with a deduction for total preference capital divided by the number of outstanding ordinary shares at the end of the period. Preference capital per preference share amounted to SEK 1,837.50, which corresponds to the redemption amount after the 2017 Annual General Meeting.

Credit facilities

The parent company has a three-year rolling credit facility of SEK 2.2 billion including a bank overdraft facility. The purpose of the credit facility is to be able to use it when bridge financing is required for acquisitions and to be able to finance dividends and day-to-day running costs in periods of few or no exits. The parent company should normally be unleveraged. The credit facility was unutilised at the end of the period.

Resolutions at the Annual General Meeting

Election of Board of Directors and Auditor

The Meeting resolved in accordance with the Nomination Committee's proposal and decided to re-elect Board members Staffan Bohman, Arne Karlsson, Annette Sadolin, Charlotte Strömberg, Jan Söderberg and Per-Olof Söderberg. Karsten Slotte was elected as a new member of the Board. Arne Karlsson was elected as Chairman of the Board.

The Meeting elected PricewaterhouseCoopers AB as auditors for the period until the next annual general meeting has been held.

Dividend on Class A and Class B Shares

The AGM resolved on an ordinary dividend of SEK 3.25 (3.00) per Class A and Class B share. The record date for the right to receive dividends was scheduled as 20 April and dividends were paid from Euroclear Sweden on 23 April 2015.

Dividend on preference shares

The Meeting resolved that a dividend on outstanding Class C preference shares until the 2016 Annual General Meeting, in accordance with the Articles of Association, shall be paid quarterly in an amount of SEK 25 per Class C preference share, although a maximum amount of SEK 100.

The record dates, prior to the next annual general meeting, for quarterly dividends on outstanding Class C preference

shares were scheduled as 15 May 2015, 14 August 2015, 13 November 2015 and 15 February 2016. Payments from Euroclear Sweden AB are expected to be made on 20 May 2015, 19 August 2015, 18 November 2015 and 18 February 2016.

Purchase of treasury shares

The Meeting gave the Board a mandate to decide, during the period until the next annual general meeting, on repurchase of a maximum number of shares so that the company's holding of treasury shares does not at any time exceed 7% of the total number of shares in the company.

Incentive programmes

The Meeting resolved to issue a maximum of 800,000 call options on Ratos Class B treasury shares to be transferred for a market premium to key people within Ratos. The AGM further resolved to transfer a maximum of 800,000 treasury shares when the above-mentioned options are exercised.

The Meeting also resolved on a cash-settled option programme related to Ratos's investments in the holdings. The programme will be carried out by issuing synthetic options which key people within Ratos will be entitled to acquire at a market price.

The Meeting also resolved on a transfer of a maximum of 16,000 Ratos B treasury shares to administrative employees at Ratos.

Authorisation for new issue Class B shares to be used at acquisitions

The Meeting resolved to authorise the Board, during the period until the next annual general meeting, in conjunction with agreements on company acquisitions, on one or several occasions, with or without deviation from the pre-emptive rights of shareholders, for a cash payment, through set-off or non-cash, to make a decision on a new issue of Ratos shares. This authorisation comprises a maximum of 35 million Class B shares.

Authorisation for new issue of preference shares to be used at acquisitions

The Meeting further resolved to authorise the Board, during the period until the next annual general meeting, in conjunction with agreements on company acquisitions, on one or several occasions, with or without deviation from the pre-emptive rights of shareholders, for a cash payment, through set-off or non-cash, to make a decision on a new issue of Class C and/or Class D preference shares. The authorisation shall comprise a maximum total of 1,250,000 Class C and/or Class D preference shares.

The Meeting further resolved on amendments to the Articles of Association to enable a new issue of Class D preference shares as well as dividends on Class C and/or Class D shares which may be issued prior to the 2016 Annual General Meeting to be paid quarterly of SEK 25 per Class C and/or Class D preference share, although a maximum of SEK 100.

^{*)} Adjusted for the size of Ratos's holding.

AH Industries

- Sales SEK 239m (190) and EBITA SEK 9m (0)
- Good sales development within Industrial Solutions and improved earnings due to completed restructuring and improvement initiatives. Market uncertainty remains considerable, however
- Focus on new sales initiatives and improvement measures

AH Industries is a world-leading supplier of metal components, modules, systems and services to the wind energy and cement and minerals industries. The company is specialised in the manufacture and machining of heavy metal components with high precision requirements. The company has production facilities in Denmark, China and Germany.

Ratos holding in AH Industries amounted to 70% and the consolidated book value in Ratos was SEK 222m at 31 March 2015.

Aibel

- Sales SEK 1,907m (2,603) and EBITA SEK 125m (43)
- EBITA adjusted for costs affecting comparability amounted to SEK 140m (107)
- Awarded new construction contract for the Johan Sverdrup field in February worth approximately NOK 8 billion. This work has started and is expected to be completed in 2018
- Decline in sales due to weak market development within MMO and Modification. Further limited action taken during the quarter to adapt the organisation within MMO and Modification to the current level of activity
- Earnings increase in the first quarter driven by several successful projects within MMO and Modification which are in their final phase during the first half of the year. Earnings are not expected to be as strong in the second half of the year
- The order book at 31 March 2015 amounted to approximately NOK 17 billion (approximately NOK 15 billion at 31 March 2014)

Aibel is a leading Norwegian supplier of maintenance and modification services (MMO and Modification) for oil and gas production platforms as well as new construction projects (Field Development) within oil, gas and renewable energy. The company has operations along the entire Norwegian coast as well as in Asia. Customers are primarily major oil companies which operate on the Norwegian continental shelf.

HL Display

- Sales SEK 337m (364) and EBITA SEK -11m (13)
- Sales decreased by 14%, adjusted for currency effects. Weaker market in the retail segment and brand suppliers segment, particularly in the UK and Russia
- EBITA adjusted for restructuring costs of SEK 12m, related to closure of a sales company and cutbacks in the UK, amounted to SEK 1m (16). The lower earnings are mainly due to reduced volumes
- Planned transfer of injection moulding operations from Sundsvall, Sweden, to Poland will lead to additional restructuring costs in 2015

HL Display is a global supplier of products and systems for merchandising and in-store communication with operations in 47 countries. Manufacture takes place in Poland, Sweden, China and the UK.

Ratos's holding in HL Display amounted to 99% and the consolidated book value in Ratos was SEK 823m at 31 March 2015.

Inwido

- Sales SEK 1,047m (907) and EBITA SEK 29m (-71)
- Good sales growth, +8% adjusted for currency effects and acquisitions, driven by strong order intake in the previous quarter. Sweden and Denmark showed good growth while development in Finland and Norway was affected by lower market activity
- Order intake rose 2% in the first quarter, adjusted for acquisitions, driven by higher demand in the prioritised consumer segment, primarily in Denmark and Sweden. The order book at the end of the first quarter increased to SEK 786m (694), 10% higher than in the corresponding quarter last year for comparable units
- Strong earnings trend due to increased sales and continued efficiency improvements from completed action programmes. Adjusted EBITA amounted to SEK 29m (4)
- After the end of the first quarter, Ratos sold 20.9% of the total number of shares in Inwido. The sale was made at a price of SEK 91 per share a total of approximately SEK 1,103m, and provides an estimated capital gain of approximately SEK 230m. Following the sale, Ratos owns 10.4% of the shares in Inwido

Note 1 Accounting principles in accordance with IFRS

The consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS). The interim report is prepared in accordance with IAS 34, Interim Financial Reporting. Pertinent regulations in the Swedish Annual Accounts Act are also applied.

The parent company's interim report is prepared in accordance with the Annual Accounts Act, which is in accordance with the regulations in RFR 2 Accounting for Legal Entities.

IFRS requires uniform accounting principles within a group. The IFRS standards and issued interpretations applied in this interim report are those endorsed by the EU until and including 31 December 2014. The new and revised IFRS standards which came into force in 2015 have not had any material effect on the Ratos Group's financial statements. This means that the same accounting principles and basis of calculation are applied for the Group and the parent company as those used in preparation of the 2014 Annual Report.

Note 2 Business combinations

Acquisitions

Acquisitions in subsidiaries

In the first quarter of 2015, Bisnode acquired Octopus System in the Czech Republic. The consideration transferred amounted to SEK 8m. The intention is to strengthen Bisnode in the Czech market. In the same quarter, Nordic Cinema Group, via a subsidiary, acquired all the shares in Ski kinosenter, for a consideration transferred of SEK 53m. The acquisition is in line with SF Kino AS's strategy to establish itself in the Oslo market.

Divestment after the end of the reporting period

Ratos has signed an agreement on the sale of its subsidiary Nordic Cinema Group, the leading cinema operator in the Nordic and Baltic markets, to Bridgepoint. The selling price amounts to approximately SEK 4,700m (enterprise value) and Ratos will receive approximately SEK 1,700m for its shareholding. The sale generates an exit gain of approximately SEK 900m. The sale is subject to approval from the relevant authorities and is expected to be completed in the summer.

In April, Ratos sold 20.9% of the total number of shares in Inwido AB (publ). The sale was made at a price of SEK 91 per share, a total of approximately SEK 1,103m, and provides an exit gain of approximately SEK 230m. Following the sale, Ratos owns 10.4% of the shares in Inwido. Ratos's assessment is that even after the partial divestment the Group has a significant influence over Inwido despite then owning less than 20% of the shares. This is due to an assessed unchanged influence and continued representation on the board. Inwido will therefore continue to be classified as an associate.
