

Webinar Friday June 5th: How can we improve infection diagnostics with ASTar

Q-linea AB (publ) (OMX: QLINEA), invites you to a webinar on June 5th at 2pm and 7pm CEST with presentations by CEO Jonas Jarvius, Research Director Mats Gullberg and Marketing & Sales Director Charlotta Göransson.

On the agenda:

- Presentation of Q-linea and our leading product ASTar®
- Presentation of the technology behind ASTar – ASTar is designed to deliver the most accurate and complete result for rapid phenotypic AST.
- Demonstration of the features of ASTar and how to perform a run.

The information was submitted for publication, through the agency of the contact persons set out above, at 15:00 CET on 25 May 2020.

About Q-linea

Q-linea is an innovative infection diagnostics company that primarily develops instruments and disposables for rapid and reliable infection diagnostics. Our vision is to help save lives by ensuring antibiotics continue to be an effective treatment for future generations. Q-linea develops and delivers preferred solutions for healthcare providers, enabling them to accurately diagnose and treat infectious disease in the shortest possible time. The company's lead product ASTar® is a fully automated instrument for antibiotic susceptibility testing (AST), giving a susceptibility profile within six hours directly from a positive blood culture. For more information, please visit www.qlinea.com.
