

## **PRE-RECORDED STATEMENTS IN CONNECTION WITH THE 2021 ANNUAL GENERAL MEETING**

The statements by Chairman of the Board Johan Wall, President and CEO Henrik Perbeck and CFO Erika Ståhl are now available (in Swedish) [www.beijeralma.se](http://www.beijeralma.se).

Extract from President and CEO Henrik Perbeck's video statement.

"As previously mentioned, last year ended on a relatively strong note. Although uncertainty remains, we all expect 2021 to be a better year than 2020. The most recent waves of the pandemic have had a much less severe impact on the industrial sector than on society as a whole. Moreover, the Group is stable, not only financially, but also in terms of our close proximity to our customers, which in the long term has created a robust business model.

We also have a competitive cost base that can be leveraged, and we are continuing to focus on cost control and strong cash flow. At the same time, we must keep one foot on the gas to create value through profitable growth – through both further acquisitions and organic growth via continued investments in the Group companies."
