The shares will be acquired in public trading organised by Nasdaq Helsinki ("the Stock Exchange"). Furthermore, they will be acquired and paid for according to the rules of the Stock Exchange and Euroclear Finland Ltd.

The Board may, pursuant to the authorisation, only decide upon the acquisition of treasury shares using the company's unrestricted shareholders' equity.

The authorisation is required for supporting the company's growth strategy in the company's potential mergers and acquisitions or other arrangements. In addition, shares can be distributed to the company's current shareholders, used for increasing shareholders' ownership value by invalidating shares after their acquisition or used in personnel incentive systems. The authorisation includes the right of the Board to decide upon all other terms and conditions in the acquisition of treasury shares.

The authorisation is proposed to be valid until the next Annual General Meeting; however, no later than 30 June 2020. The previous authorisations are cancelled.

The authorisation includes the right of the Board to decide upon all other terms and conditions of the share issue. Thus, the authorisation includes the right to organise a special issue in deviation of the shareholders' subscription rights under the conditions prescribed by law.

The authorisation is proposed for use in supporting the company's growth strategy in the company's potential corporate acquisitions or other arrangements. In addition, the shares can be issued to the company's current shareholders, sold through public trading or used in personnel incentive systems. A directed issue may only be free of charge if there is a particularly weighty economic reason for this considering the company, taking into account the interests of the company and all of its shareholders.

The authorisation is proposed to be valid until the next Annual General Meeting; however, no later than 30 June 2020. The previous authorisations are cancelled.

Shares can be issued as part of the company's share-based incentive plans. The Board of Directors will decide on all the terms and conditions for the granting of special rights entitling to shares in the share issue. Based on the authorisation, a derogation from the pre-emptive subscription right of shareholders (targeted share issue) may be granted for the special rights entitling to shares.
