

## ZWIPE AND XH SMART TECHNOLOGY ENTER INTO A STRATEGIC PARTNERSHIP TO LAUNCH BIOMETRIC PAYMENT CARDS

**OSLO, NORWAY– 25 JUNE 2019** – Biometric technology company Zwipe has entered into a partnership with XH Smart, a global smart card manufacturer, focused on commercializing end to end biometric payment offerings to XH Smart customers in China and beyond.

XH Smart is a global solutions provider offering end-to-end digital security solutions to banks and telecom operators in more than 70 countries across the world. A fully accredited Visa, Mastercard and China UnionPay card manufacturer, the company has grown rapidly since its founding in 2011, becoming a global player in the payment card marketplace, marked by several large industry acquisitions both inside and outside of China. In 2018 the company manufactured in excess of 44 million payment cards.

Speaking on the agreement with Zwipe, Mr Eehou Lim, XH Smart Group SVP, said “We are convinced that biometric payment cards is becoming one of the new standards in payments going forward and that is why we have partnered with Zwipe, the only company that can assist us in offering an end to end solution to our customers. We are confident that we have the right pieces in place to seize this exciting opportunity.”

Zwipe’s end to end offering buoyed by its strong intellectual property portfolio provides card manufacturers physical components and manufacturing support. Additionally, the comprehensive package covers advisory services that will enable card manufacturers to provide a more complete offering to banks and issuers, by directly supporting product integration, customer enrolment and onboarding on multiple platforms.

Commenting on this partnership, André Løvestam, CEO of Zwipe said “We are excited to partner with XH Smart and to contribute to their capacity to deliver not just an innovative new product but a complete experience to their discerning customers, driven by our shared commitment to making convenience secure.”
