

ZWIPE SELECTED BY DZ CARD TO LAUNCH BIOMETRIC PAYMENT SOLUTIONS

BANGKOK, THAILAND – 11 SEPTEMBER 2019 – Biometric technology company Zwipe and dz card a global card solution provider and one of the largest card manufacturers in Southeast Asia, have signed a partnership to launch biometric payment solutions addressing the emerging needs of customers in Thailand and across Southeast Asia, as well as India and Africa.

Speaking on the engagement, Mr. Renaud ADAM – CEO of dz card said, “we have received requests from several large issuers seeking biometric payment cards and we are excited to partner with Zwipe, who is uniquely positioned to support our customers in introducing, optimizing and scaling up the issuance of this innovative product which makes contactless payment so much more secure.”

dz card will look to integrate Zwipe’s technology platform in bringing their biometric payment cards and other associated solutions to market, featuring Zwipe’s proprietary biometric payment platform and secure at-home enrolment offering.

Commenting on this latest customer acquisition André Løvestam, CEO of Zwipe said, “we are honored that dz card decided to join our growing customer base and we are confident that our unique and dedicated approach to support them in launching biometric payment cards will be a win for their customers, some of the largest financial institutions in Southeast Asia.”

###
