

## ZWIPE STEPS UP COLLABORATION WITH TOPPAN FORMS CARD TECHNOLOGIES LIMITED

**OSLO, NORWAY – 8 June 2020** – Zwipe is pleased to announce a new milestone in its ongoing collaboration with Toppan Forms Card Technologies Limited (TFCT), a leading smart card manufacturer based in Hong Kong.

TFCT has placed an order that brings the recently [announced partnership](#) to begin small scale manufacturing of biometric payment cards. This is a key milestone as part of the setup project and necessary developments in preparing for high-volume market roll-out of Zwipe Pay ONE.

*"We have allocated time and space in our manufacturing facilities for producing biometric payment cards powered by Zwipe's technology. We are excited to move ahead with Zwipe in this important project to develop the biometric payments market" says Mr. Joseph Hui, Deputy Managing Director of Toppan Forms Card Technologies Limited.*

*"The APAC payments market has one of the highest growth rates in the world. We are pleased that TFCT, a payment solutions leader in this region, has decided to step up cooperation to integrate our platform in their payment cards. We look forward to working closely with TFCT to deliver safer and more secure contactless payments with the disruptive Zwipe Pay ONE platform" says André Løvestam, CEO of Zwipe.*

### **About Zwipe**

Zwipe is a technology solution provider that enables battery-less, ultra-low-power, self-contained biometric authentication solutions. Together with an ecosystem of partners including global brands within security, financial services and ID applications, Zwipe is "Making Convenience Safe and Secure™" for banks, merchants and consumers. Using advanced fingerprint recognition while protecting personal information, Zwipe's solutions address the data theft pitfalls inherent in traditional authentication methods. Headquartered in Oslo, Norway, Zwipe has spent the last 10 years developing its unique power harvesting technology platform in combination with security solutions based on international infrastructure standards.
