United Kingdom's Royal Navy Acquires Saab's Anti-Submarine Warfare Training System

Saab has received an order to provide the United Kingdom's Royal Navy with the AUV62-AT anti-submarine warfare (ASW) training system. Delivery is expected to take place in 2019.

Saab has received this order in collaboration with the UK-based company QinetiQ. The order comprises of Saab's AUV62-AT autonomous underwater vehicle system. This system is a cost-efficient training solution allowing ASW units to train in a wide range of scenarios. This procurement follows a period of testing and evaluation together with QinetiQ and the Royal Navy.

"We welcome the Royal Navy as our latest customer of the AUV62-AT. Together with QinetiQ we have demonstrated and used the AUV62-AT in multiple training scenarios to show the customer the true capability that comes with our state-of-the-art ASW solution," says Görgen Johansson, Head of Saab business area Dynamics.

Saab has a long underwater expertise that stretches back to the early 1900's. With multiple underwater vehicles, such as Saab's Lightweight Torpedo, the Sabertooth ROV/AUV hybrid and the AUV62-AT anti-submarine warfare training system, Saab offers world-leading products within the underwater domain.
