Under Lot 2 of the BEST MAC contract, Saab will support the U.S. Army's Tactical Engagement Simulation Systems (TESS) program through the delivery of Vehicle Tactical Engagement Simulation System (VTESS) Base Kits.

"The VTESS base kits enable the U.S. Army vehicles to participate in force-on-force exercises utilizing a dramatically improved, reliable, soldier friendly system," said Erik Smith, President and CEO of Saab in the U.S. "Our tech-driven, hands-on training solutions are developed in partnership with our customers – we constantly develop, adopt and improve new technology to meet changing customer needs."

Managed by the U.S. Army's Capability Program Executive Simulation, Training, Test and Threat (CPE ST3), the system includes laser detector training kits designed to equip military tactical and non-tactical vehicles for training exercises. These systems enable soldiers to conduct highly realistic live force-on-force training with their existing vehicle platforms and weapons systems. The VTESS solution also seamlessly integrates with the Army's existing and legacy TESS training equipment.

This award reinforces Saab's continued commitment to delivering advanced training and simulation capabilities that enhance warfighter readiness and operational effectiveness.

Saab is a leading defense and security company with an enduring purpose, to help nations keep their people and society safe. Empowered by its 28,000 talented people, Saab constantly pushes the boundaries of technology to create a safer and more sustainable world. Saab designs, manufactures and maintains advanced systems in aeronautics, weapons, command and control, sensors and underwater systems. Saab is headquartered in Sweden. It has major operations all over the world and is part of the domestic defense capability of several nations.

Saab, Inc. is a U.S. based wholly owned subsidiary, delivering advanced technology and systems, supporting the U.S. Armed Forces and the Federal Aviation Administration, as well as international and commercial partners. Headquartered in Syracuse, New York, the company has business units and local employees in ten U.S. locations.
