Fortaco completes the sale of steel fabrication and assembly operations in Estonia, Poland and Finland to HANZA Group

Fortaco Group Holdco plc | PRESS RELEASE | 2 November 2026 at 16.30 EEST

Fortaco announced on 15 July 2026 having signed an agreement to sell steel fabrication and assembly operations in Estonia, Poland and Finland to HANZA Group, a Sweden-based global contract manufacturer.

As customary closing conditions and regulatory approvals have been met and an agreement reached on terms with certain of Fortaco's financial stakeholders, the transaction has been successfully completed on 2 November 2026.

The divestment sharpens Fortaco's strategic focus and enables it to fully concentrate on and reinforce its vehicle cabin operations as an international cabin company with attractive growth opportunities both in Europe and beyond. With a strong focus on customers, Fortaco is the leading European strategic partner for off-highway equipment OEMs (Original Equipment Manufacturers) worldwide within design, innovative technologies and manufacturing of cabins.
