## **About the Qatar Economic Forum**

The event, which will take place during 21-23 June, welcomes a global delegation of more than 2,000 government leaders, chief executives, influential voices, and decision-makers in the fields of finance, economics, investment, technology, energy, education, sports and climate in an effort to identify opportunities, present solutions and rethink the global economic landscape through the lens of the Middle East. Anchored in Doha, the invite-only forum will draw on Qatar's ability to link Asia with Africa and beyond, driving dynamic conversations around the importance of deeper collaboration and connectivity as a mean for advancing economic opportunity.

The forum agenda will be centered around six main pillars over the course of three days: "Technology Advanced" takes a closer look at permanent changes to the human-technology nexus; "A Sustainable World" will explore the intersection of capitalism and climate; "Markets and Investing" poses the question of whether investors, in their inexorable pursuit of growth opportunities, can shape a more resilient global economy; "Power and Trade Flows" gathers global power brokers to share their vision of the road ahead; "The Changing Consumer" examines the future of commerce; and "A More Inclusive World" will offer ideas for healing fissures in a post-pandemic society.

Produced by Bloomberg Live, the forum will come to life in a 360° cross-platform experience, with live-streaming on the Bloomberg Terminal and news coverage across Bloomberg's global media platforms including Bloomberg TV, and bloomberg.com. For the latest updates on speakers and the full agenda, please visit: <a href="QatarEconomicForum.com">QatarEconomicForum.com</a>.

## **About Eco Wave Power Global AB (publ)**

Eco Wave Power Global (EWPG) is a leading onshore wave energy technology company that developed a patented, smart and cost-efficient technology for turning ocean and sea waves into green electricity. EWPG's mission is to assist in the fight against climate change by enabling commercial power production from ocean and sea waves.

EWPG is recognized as a "Pioneering Technology" by the Israeli Ministry of Energy and was labelled as an "Efficient Solution" by the Solar Impulse Foundation. EWPG's project in Gibraltar has received funding from the European Union Regional Development Fund and the European Commission's Horizon 2020 framework program. The company has also received the

"Climate Action Award" from the United Nations.

EWPG's common shares (ECOWVE) are traded on Nasdaq First North Growth Market.

FNCA is the company's Certified Advisor (+46 8-528 00 399, info@fnca.se).
