

DreamHack and Swedish train-operator SJ arrange train trip to DreamHack Winter

The DreamHack Train Ticket, Starting at 349 SEK, Includes Day Pass for DreamHack Winter

DreamHack, the premier gaming lifestyle festival, celebrates its 25th anniversary on December 9, 2019, also known as DreamHack Day. However, the celebration will start earlier than that as DreamHack Winter is the official celebratory festival, running from November 29 to December 1. As part of the celebration, DreamHack, in partnership with the Swedish train-operator SJ, will offer enthusiasts traveling from Stockholm an environment-friendly option for attending DreamHack Winter on Saturday, November 30.

The DreamHack Train departs from Stockholm Central on Saturday, September 30, at 6:47 AM and arrives at Jönköping C 10:42 AM. DreamHack and its partners will offer travelers onboard the train different gaming activities in order to get the hype going. Chartered buses will drive the travelers from Jönköping C to Elmia, where DreamHack Winter is held.

"DreamHack is not only a world-renowned, premier gaming lifestyle festival, but also one of the largest festivals in Sweden. Being able to team up with SJ to offer our visitors a fast, smooth and environment-friendly travel alternative feels great", said DreamHack co-CEO Marcus Lindmark. "DreamHack Winter will be packed with activities, featuring the 25th anniversary, Black Friday, esports such as DreamHack Open in CS:GO and the Super Smash Bros. Ultimate European Circuit, several big music artists, and one of our biggest expo areas to date, with more news to follow"

The 2019 edition of DreamHack Winter will be one of the most maxed out DreamHack festivals ever. Visitors will be able to experience live music, esports, cosplay, streamers, a record-breaking number of exhibitors, and everything gaming. The chartered buses will return to Jönköping C in time for the 6.26 PM DreamHack Train departure, arriving back in Stockholm at 9:25 PM.

As part of the 25th-anniversary celebrations, DreamHack and SJ have chosen to sell the DreamHack Train tickets at a bargain price.
