Item 14 - Resolution on instructions for the Nomination Committee

The nomination committee shall comprise of five (5) members. During September the chairperson of the board shall contact the five largest shareholders in terms of votes regarding the formation of a nomination committee. If any of the five largest shareholders in terms of votes decides to waive its right to appoint a member of the nomination committee, or may otherwise be considered to have waived such right, the right shall pass to the shareholder who, after these five shareholders, has the largest shareholding in the company in terms of votes. The names of the members of the nomination committee, and the names of the shareholders having appointed the members, shall be published no later than six months prior to the annual general meeting and be based upon the known shareholding as per the last trading day in August. The nomination committee is appointed for a term of office commencing at the time of the announcement of its composition and ending when a new nomination committee is formed. Unless the committee members agree otherwise, the chairperson of the nomination committee shall be the member appointed by the largest shareholder in terms of votes. The committee forms a quorum when more than half of its members are present. The nomination committee has the right to co-opt the chairperson of the board.

If during the nomination committee's term of office one or more of the shareholders that have appointed members to the nomination committee are no longer among the largest shareholders in terms of votes, then the members appointed by these shareholders shall resign their positions and the shareholder or shareholders who have become among the largest shareholders in terms of votes shall be offered the opportunity to appoint members to the nomination committee. Unless there is special cause, no changes shall be made to the composition of the nomination committee if only minor changes in shareholding have been made, or if the changes take place later than two months prior to the time when the notice to the general meeting is to be announced.

Shareholders who appoint members to the nomination committee have the right to dismiss their member and appoint a new one. Equally, the shareholder whose member requests to leave the committee before its work is completed has the right to replace such a member. Changes to the composition of the nomination committee shall be published as soon as they take place.

The nomination committee shall produce proposals for the following items to be resolved by the annual general meeting:

- proposal for chairperson of the meeting,
- proposal for number of board members,
- proposal for nomination of board members and chairperson of the board,
- proposal for nomination of auditors,
- proposal for fees to the board of directors and its committees,
- proposal for fees to auditors, and
- review and, if necessary, proposals for new instructions to the nomination committee.

The nomination committee shall make available the requisite information to Beijer Ref so that Beijer Ref can meet the information requirements of the Swedish corporate governance code. Furthermore, the nomination committee shall in performing its duties meet the requirements set by the Swedish corporate governance code for nomination committees, and Beijer Ref shall at the request of the nomination committee provide staff resources, such as secretary of the nomination committee, in order to facilitate the committee's work. If so required, Beijer Ref shall also pay reasonable costs for external consultants and similar which are considered necessary by the nomination committee for it to perform its duties.

These instructions apply until the general meeting resolves otherwise.

Item 15 - Resolution to authorise the board of directors to resolve on a new share issue

The board of directors proposes that the general meeting authorise the board of directors to, on one or more occasions during the period up to the next Annual General Meeting, resolve to issue as many new shares as correspond to a maximum of 10 percent of the company's total number of shares at the time of the resolution. The share issue may be with or without deviation from the shareholders' preferential rights, by payment in cash, by contribution in kind or by set-off.

The purpose of the authorisation and the reason for the deviation from the shareholders' preferential right is to pursue the company's acquisition strategy by enabling acquisitions by payment in Beijer Ref shares (contribution in kind) or flexibility in the financing of acquisitions. The share issue price shall be determined in accordance with market conditions, which may include customary discounts. Other terms may be resolved by the board of directors.

The board of directors, or anyone appointed by the board of directors, shall be authorised to make such minor adjustments of the resolution that may be necessary in connection with registration with the Swedish Companies Registration Office.

The proposal is subject to the support of shareholders representing at least two-thirds of the votes cast and the shares represented at the meeting.

Item 16 - Resolution on (A) implementation of a long-term share-based incentive program LTI 2024, (B) acquisition and transfer of own shares, alternatively (C) other hedging measures

The board of directors of Beijer Ref AB ("Beijer Ref") proposes that the annual general meeting 2024 resolves to establish a long-term share-based incentive program ("LTI 2024" or the "Program") for group management and other key individuals with the Beijer Ref group of companies (the "Group").

The board of directors has, in consultation with external advisors, conducted a detailed evaluation of previous incentive programs and alternative programs, as well as analysed and compared programs of other public companies. Based on this evaluation, the board of directors has proposed a new incentive program as follows.

LTI 2024 is a performance-based incentive program with an element of personal financial investment. The performance targets used to assess the outcome of the Program is growth in profit per share, which has a clear link to the long-term interests of the shareholders. The overall purpose of LTI 2024 is to strengthen the company's growth by motivating and retaining personnel with key competence.

The board of directors is of the opinion that recurring long-term incentive programs are an important part of the Group's total remuneration package and therefore intends to annually propose incentive programs for approval by the annual general meeting.

(A) Resolution on the establishment of LTI 2024

LTI 2024 is proposed to include the group management (currently 8 persons) and approximately 140 additional key individuals within the Group.

LTI 2024 comprises a maximum of 550,000 B-shares in Beijer Ref which may be transferred to participants based on performance targets under the terms and conditions of the Program and as dividend compensation in accordance with the terms and conditions of the Program and/or which may be transferred on the market, in order to, in terms of liquidity, hedge costs for the Program, mainly social security contributions and cash settlement in certain countries.

Participants and own investment

In order to be entitled to participate in LTI 2024, the participants are required to acquire and allocate own B-shares in Beijer Ref to the Program or allocate shares already held by the participant to the Program (hereinafter referred to as "Investment Shares"), as set out below.

For each Investment Share, the company will allocate a maximum number of so-called performance share rights, corresponding to the same number of underlying B-shares in Beijer Ref. Allocated performance share rights are vested during the duration of the Program based on achieved performance targets. The vested number of performance share rights at the end of the program entitles the holder to receive a corresponding number of B shares in Beijer Ref, free of charge, as follows.

Own Investment Shares may be allocated to LTI 2024 during the period 2 May 2024 – 31 May 2024 (the "Investment Period"). If a participant enter into employment after the Investment Period or if a participant possesses inside information and is therefore prevented from acquiring Investment Shares during the Investment Period, the board of directors shall be entitled to extend or postpone the Investment Period in individual cases, however no later than 31 December 2024.

LTI 2024 shall include the following employee categories and the participant may allocate a maximum of the following number of Investment Shares to LTI 2024. Based on the number of Investment Shares, the participant receives the following allocation of a certain number of performance share rights per Investment Share. At the time of this proposal, the maximum number of Investment Shares corresponds in value to approximately 6-10 per cent of the executive's fixed annual salary.

Position	Maximum number of Investment Shares (per participant)	Allocated performance share rights per Investment Share / Total
CEO (1 person)	7,400	9 / 66,600
Part of group management and other key individuals (category A) (around 5 individuals)	1,775	7.5 / 13,313
Part of group management and other key individuals (category B) (around 15 individuals)	900	7.5 / 6,750
Other key individuals (category C) (around 24 individuals)	800	6 / 4,800
Other key individuals (category D) (around 40 individuals)	525	4.5 / 2,363
Other key individuals (category E) (around 65 individuals)	350	3 / 1,050

Performance targets and vesting

Allocated performance share rights are subject to vesting during the term of the Program, with duration up to and including the date of Beijer Ref's annual general meeting 2026 and annual general meeting 2027, respectively. Allocated shares, together with any dividend compensation as described below, will be distributed to the participant after the annual general meeting 2026 (relating to the financial years 2024 and 2025 and the measurement period 2024–2025) and after the annual general meeting 2027 (relating to the financial year 2026 and the measurement period 2024–2026).

The number of allocated performance share rights that may be vested depends on the growth of profit per share based on established growth targets for each financial year. Profit per share for a given financial year refers to profit per share after dilution excluding items affecting comparability. Prior to the start of the Investment Period, the board of directors will decide on performance targets as described above. This takes place in the form of a minimum target level and a stretch target level for the profit per share, relating to (i) each of the financial years 2024, 2025 and 2026, (ii) a minimum target level and stretch target level for profit per share for the period 2024–2025 (based on the targets per financial year), and (iii) a minimum target level and stretch target level for profit per share for the entire period 2024–2026 (based on the targets per financial year).

If the minimum target level for any measurement period is not reached, no performance share rights shall be vested. If the stretch target level for a financial year is reached, one third of the total number of allocated performance share rights shall be vested. If the stretch target level for the measurement period 2024–2025 is reached, two thirds of the total number of allocated performance share rights shall be vested. If the stretch target level for the entire measurement period 2024–2026 is achieved, the entire number of allocated performance share rights shall be vested. If the outcome falls between the minimum and stretch target level in any case, the profit shall be calculated linearly. The participant's individual vesting of allocated performance share rights is thereby determined as the highest of (i) the outcome for each individual financial year 2024 and 2025 compared to the entire measurement period 2024–2025, and (ii) in addition, the outcome for the financial year 2026 compared to the entire measurement period 2024–2026, minus the vesting paid out for the financial years 2024–2025.

Receiving B-shares in Beijer Ref

Each performance share right vested entitles the participant to receive allotment and payment of one share of series B in Beijer Ref, free of charge. The number of vested performance share rights and the corresponding allotment of shares is determined by the board of directors in connection with the company's year-end report for 2025 and 2026, respectively, based on the terms and conditions of the Program, but subject to continued vesting up to and including the annual general meeting 2026 and annual general meeting 2027, respectively. In addition, a dividend compensation is received corresponding to the share dividend during respective vesting period on the allotted number of shares up to and including the time of payment. The company shall have the right to pay the dividend compensation in cash or in shares of series B, where the number of shares is determined based on the closing price during the first day the share is traded without the right to (first) dividend in 2025, 2026 and 2027, respectively.

Example: An employee in category C has invested in and allocated 810 Investment Shares to LTI 2024. The employee can thus vest a maximum of 4,860 performance share rights, either a maximum of 1,620 per financial year 2024 and 2025 or a maximum of 3,340 for the period 2024–2025 and in addition a maximum of 1,620 for the financial year 2026 or a maximum of 4,860 for the period 2024–2026, with deductions for what has previously been vested and paid out for the financial years 2024 and 2025.

The reason why the vesting period is partly less than three years is to facilitate motivation for employees to invest or reinvest from previous LTI-programs and to create strong incentives for the performance targets for the financial years 2024 and 2025 and thereby achieve a high level of participation.

A condition for receiving allotment and payment of shares is that the Participant has retained all of his/her Investment Shares up to and including the annual general meeting 2026 and the annual general meeting 2027, respectively, and at such dates remains employed by the Group and has not terminated his/her employment (with customary exceptions).

The number of B shares that each performance share right may entitle the participant to receive shall be subject to recalculation due to corporate events such as new issues, splits, mergers or similar dispositions.

Performance share rights are not transferable or possible to pledge.

Preparation and administration

The board of directors shall be responsible for preparing the details of the terms and conditions of LTI 2024, in accordance with the mentioned terms and guidelines.

The board of directors shall be entitled to make reasonable adjustments to meet specific regulations or market conditions abroad, such as deviating from the investment requirement and/or offering cash settlement

to participants. To this end, the board of directors shall have the right to implement an alternative incentive arrangement for employees in such countries where participation in LTI 2024 is not appropriate, whereby the alternative arrangement shall, as far as practically possible, correspond to the terms and conditions of LTI 2024. The board of directors shall also be entitled to make other reasonable adjustments if there are significant changes in the Group's operations including M&A that would entail that the decided terms and conditions under LTI 2024 are no longer appropriate. Such adjustments also include the right for the board of directors to resolve on a reduction of the allocation of shares if, taking into account Beijer Ref's results and financial position, the Group's development in general and the conditions on the stock market, the allocation would be clearly unreasonable.

In the event that the board of directors considers that delivery of shares under LTI 2024 in any individual case cannot be made at reasonable costs, with reasonable administrative efforts or due to specific market conditions or specific rules, participants may instead be offered cash settlement.

Participation in LTI 2024 requires that the participation can legally take place and that the participation, according to Beijer Ref's assessment, can be carried out with reasonable costs.

In the event of a public takeover bid, sale of the company's business, liquidation, merger or similar events, the board of directors shall be entitled to resolve that the performance share rights shall be (fully or partially) vested and shares allotted in connection with the completion of such transaction. The board of directors shall make this decision based on the level of achievement of the performance targets, the remaining duration of the Program and other factors deemed relevant by the board of directors.

Scope and cost of the program

LTI 2024 comprises a maximum of 550,000 shares of series B which corresponds to approximately 0.11 percent of the total outstanding shares in the company.

The costs for LTI 2024, which are reported in the income statement, are calculated in accordance with the accounting standard IFRS 2 and UFR 7 and are accrued over the vesting period. The calculation has been carried out with the following assumptions: (i) a share price for Beijer Ref's B-shares of SEK 135.10 upon implementation of the program (corresponding to the closing price on 18 March 2024), (ii) an annual share price increase for Beijer Ref's B-share of 10 per cent per year, (iii) an annual dividend based on the consensus estimate 2024–2026, (iv) full participation in the program and (v) average social security contributions of 25 per cent. Furthermore, assuming an average achievement of the performance targets of 50 per cent and an annual employee turnover of 10 per cent, this entails an estimated accounting cost for LTI 2024 of approximately SEK 27.7 million, of which approximately SEK 8.8 million relates to social security contributions. At maximum fulfillment of the performance targets and an annual share price increase of 20 per cent, the corresponding cost is approximately SEK 55.4 million, of which SEK 21.2 million relates to social security contributions. In the scenarios described, LTI 2024 would affect profit per share by SEK -0.02 and SEK -0.04 per share, respectively on pro forma basis for 2023.

The board of directors intends to present fulfilment of performance-based conditions in its future Annual Reports and Remuneration Reports.

The board of directors considers that the positive results expected to arise from executives and other key individuals increasing their shareholding through LTI 2024 outweigh the costs attributable to LTI 2024.

Hedging measures and dilution

The board of directors proposes that the general meeting as a main alternative resolves that the company's obligations in connection with LTI 2024 are fulfilled through acquisition and transfer of own shares in accordance with item (B) below. In the event that the required majority for item (B) below cannot be met, the board of directors proposes that Beijer Ref shall be able to enter into so-called share swap agreement with a third party, in accordance with item (C) below. None of the hedging alternatives entail an increase in the number of shares in the company and consequently no dilution effect in the number of issued shares will arise for existing shareholders.

(B) Resolution on authorisation for the board of directors to resolve on acquisition of own shares and transfer of own shares to participants in the Program.

(i) Acquisition of own shares

In order to ensure Beijer Ref's delivery of shares to participants in both LTI 2024 and any future incentive programs, as well as to secure the payment of future social security contributions attributable to the delivery of shares, the board of directors proposes that the annual general meeting resolves to authorise the board of directors to acquire a maximum of 550,000 shares of series B in the company before the annual general meeting 2025. Acquisitions shall take place at Nasdaq Stockholm in accordance with Nasdaq Stockholm's rulebook at a price within the price range registered at any time. Acquisitions shall be paid for in cash and may take place on one or several occasions.

(ii) Transfer of repurchased shares to participants in the Program

In the view of LTI 2024, the board of directors proposes that the annual general meeting resolves to transfer shares in Beijer Ref as follows. A maximum of 550,000 B-shares may be transferred. The right to acquire B-shares shall, with deviation from the preferential rights of the shareholders, be granted to the persons participating in LTI 2024, with the right for each participant to acquire a maximum number of shares that follows from the terms and conditions of LTI 2024. Transfer of B-shares to participants in LTI 2024 shall be made free of charge at the time and on the terms and conditions of LTI 2024 that participants in LTI 2024 are entitled to be allotted shares. The number of shares that may be transferred shall be recalculated in the event of an intervening bonus issue, share split, rights issue and similar corporate actions.

The transfer of own shares is part of the proposed LTI 2024 and the board of directors considers it to be beneficial to the company and the shareholders that participants in the Program are offered the opportunity to become shareholders in the company under the terms and conditions of LTI 2024.

Since LTI 2024 is initially not expected to give rise to a need for cash settlement or payment of social security contributions, the board of directors has decided not to propose to the annual general meeting 2024 to resolve on transfers of own shares on a regulated market to secure such payments in terms of liquidity. However, before any transfers of Beijer Ref shares take place to participants in LTI 2024, the board of directors may propose to a later general meeting to resolve that transfers may be made of own shares on a regulated market to secure such payments.

(C) Share swap agreement with a third party

The board of directors proposes that the general meeting, in the event that a sufficient majority according to item (B) above cannot be met, resolves to hedge the financial exposure that LTI 2024 is expected to entail by Beijer Ref being able to enter into a so-called share swap agreement with third party on market terms, whereby the third party in its own name shall be able to acquire and transfer shares in Beijer Ref to the participants.

For a description of the company's other ongoing incentive programs, please refer to note 6 in the annual report for 2023 and the board's remuneration report for 2023. In addition to the programs described therein, there are no other long-term incentive programs in the company.

LTI 2024 has been initiated by Beijer Ref's board of directors and remuneration committee in consultation with major shareholders and has been prepared in consultation with external advisors based on an evaluation of previous incentive programs. LTI 2024 has been prepared by the remuneration committee and discussed at board meetings.

The resolution of the meeting under item (A) above requires a majority of more than half of the votes cast. For a valid resolution under item (B) above, the resolution must be supported by shareholders holding at least nine tenths of both the votes cast and the shares represented at the meeting. A valid resolution in accordance with the proposal under item (C) above requires a majority of more than half of the votes cast.

The resolution of the meeting on LTI 2024 under item (A) above is conditional upon the general meeting either resolving in accordance with the board of directors' proposal under item (B) above or in accordance with the board of directors' proposal under item (C) above.
