

Nordisk Bergteknik extends existing financing agreement with Swedbank and Nordea

Nordisk Bergteknik has entered into an agreement with Swedbank and Nordea regarding the refinancing of a bank loan amounting to SEK 400 million. The loan matures in the third quarter of 2028, with the possibility of further extension. In addition to the bank loan, the company has signed an agreement to extend its current credit facility of SEK 650 million with the same maturity.

Nordisk Bergteknik has also reached an agreement with the mentioned banks that provides an opportunity for an additional credit facility of SEK 200 million, intended for future investments and potential acquisitions. The financing agreement also includes a potential sustainability component.

“It is gratifying that we have extended our existing bank agreement on very satisfactory terms, which creates opportunities for continued expansion and acquisitions going forward,” says Andreas Christoffersson, CEO of Nordisk Bergteknik AB.
