

Press Release
13 March 2020

Carbiotix CEO increases total holding to 2 million shares

Carbiotix (publ) ("Carbiotix") announces today that CEO Kristofer Cook has purchased 32,600 shares for 120,991 SEK on March 12th through his holding company Sustainable Holding Sweden AB, increasing his total holding to 2 million shares. Kristofer is the second largest shareholder in Carbiotix, behind co-founder Peter Falck.

Kristofer Cook, CEO for Carbiotix, comments

"I am very happy with the progress Carbiotix has made over the past several months and our competitive position across the growth markets we are targeting. With these developments, as well as a very positive response from the market, it was an easy decision to increase my holding to 2,000,000 shares, especially given Carbiotix current market value in relation to comparable companies in the microbiome diagnostic service, prebiotic ingredient, medical food and therapeutic space."

Forward-looking statements

This communication contains forward-looking statements, consisting of subjective assumptions and forecasts for future scenarios. Predictions for the future only apply as of the date they are made and are, by their nature, as is research and development work in the biotechnology segment, associated with risk and uncertainty. With this in mind, the actual outcome may deviate significantly from the scenarios as described in this press release.
