From the CEO – "2011 lays the foundations for the future"

2011 was a year filled with investments and restructuring processes that provide a good basis for the future.

In Sweden, during the fourth quarter we put Poolia back on track with our TV slogan "Do you need help? Call Poolia". During the year we opened three new offices and started three new companies. Poolia Executive Search has been profitable from the very first quarter, while TalentEye and Poolia Lead, Poolia's student and HR consulting services, are still in the startup phase. We have invested in further reinforcing our Permanent Placement operation. We have restructured five offices/business areas. We have consolidated our Öresund Region operation in Malmö and closed the Copenhagen office. We have reduced costs by merging the Group's and Sweden's administrative functions, and we have also reduced Sweden's nonoperational units. We have reduced the Swedish operation from five/six hierarchical levels to three/four in order to create the entrepreneur-driven organisation that Poolia aims to achieve. In addition to this, we will be further enhancing our focus on growth and efficiency.

In Poolia UK, we have reduced costs by more than MSEK 7, and we will see annualised savings pass MSEK 10 when

we sign a new rental agreement in mid-2012. The quarter is affected by the cost of restoring premises, which was MSEK 1.2. From May to November, Poolia UK was operationally profitable, which is not the case for December, the weakest month of the year in seasonal terms.

Much of the restructuring work on Poolia Germany has been completed. A new team is in place, focusing on sales and efficiency. This team has development potential regarding efficiency in the business.

Poolia Finland has long been reporting very good profitability. In 2011 this was confirmed with increased growth, making it a very good year. The best ever.

All in all, I am satisfied with the way we finished 2011 and the opportunities that lie ahead in 2012. The level of enquiries for 2012 so far is in line with last year.

Monika Elling MD and CEO

Business concept

Poolia's business concept is to provide companies and organisations with the expertise that meets their temporary or permanent needs for qualified professionals and outplacement services.

Poolia Quality

Poolia provides temporary staffing and permanent placement of skilled professionals, as well as outplacement and HR consulting services. We specialise in the areas of Finance & Accounting, Financial Services, Human Resources, Sales & Marketing, IT & Engineering, Office Support and Executive Search. The specialisation focuses our expertise and deepens our commitment to our customers' business operations. We understand our customers' HR needs, and we have the processes and tests in place to ensure the customer gets the right person.

Experience, specialisation, commitment, and our working methods combine to create the quality that empowers our customers with a crucial difference: employees who not only perform, but also contribute. We call this distinction 'Poolia Quality'.

Market trends

There is great uncertainty at the moment about how the economic climate will develop, and we monitor the level of enquiries on a weekly basis. The level of enquiries for 2012 so far is in line with last year.

We believe that market penetration, and thereby the proportion of temporary staff in the companies in our markets, will increase over time.

OCTOBER – DECEMBER THE GROUP (EXCLUDING DEDICARE)

Revenues

Revenues for the Group fell by 1.2% to MSEK 292.0 (295.7). The exchange rate had a negative impact of 0.2% on revenues. Temporary Staffing is the largest service area. The proportion of sales from the Permanent Placement service area was unchanged at 11%. There is growth in sales is in Sweden and Finland. Permanent Placement has grown in all segments.

Financial results

The operating loss was MSEK -1.8 (-62.2). The operating margin was -0.6% (3.0 excluding amortisation of goodwill). The financial results were charged with restructuring expenses, new investments and the cost of TV advertising in Sweden to the order of MSEK 8.9, as well as the cost of restoring premises in the UK to the order of MSEK 1.2. Last year the financial results were charged with the amortisation of goodwill in the UK to the order of SEK -71.2. The chart below shows the operating profit/loss excluding the amortisation of goodwill. Non-distributed parent company expenses totalled MSEK -4.2 (-5.9). The consolidated profit after financial items was MSEK 0.4 (0.1). The loss before tax was MSEK -1.4 (-62.1). The Group's tax totalled MSEK 2.8 (-6.0), largely due to a change in the value of the tax loss carryforward in Germany, which affects the Group's deferred tax asset.

POOLIA UK

Revenues

Poolia UK revenues were MSEK 24.7 (33.3). In local currency, revenues fell by 25%, and the exchange rate had a negative impact of 1% during the quarter. This fall in revenues is a natural effect of the strategy to terminate transactions with margins that are too low. The proportion of business in Permanent Placement increased from 12% to 15%.

Financial results

Poolia UK's operating loss for the period was MSEK -1.1 (-72.3).

The financial results are charged with the cost of restoring premises to the order of MSEK 1.2. Restructuring work is proceeding successfully. The company has achieved a considerable reduction in overheads, an underlying increase in margins by shifting the customer mix towards a higher proportion of small and medium-sized customers, as well as improved efficiency by reorganising the business. Savings are estimated at MSEK 7 annualised for 2011, and this level will further increase in 2012 with a change in the cost of premises. In seasonal terms, the fourth quarter is the weakest in the segment and reported a loss. The period from May to November 2011 saw an operating profit.

Operational sectors and geographical regions

Poolia applies IFRS 8, Operating Segments. Operating segments are reported in a way that complies with internal reporting, which for Poolia means a division into both geographical regions and business segments.

An operating segment is a part of the Group that conducts business from which it can generate revenues and incur expenses, and for which separate financial information is available. The operating segment's operating profit/loss is reviewed regularly by the company's executive decision-makers, i.e. the Poolia Group's corporate management team. This review forms the basis for decisions on the allocation of resources to the segment and for assessment of its performance.

Poolia's geographical segments are Sweden, Finland, Germany and the UK. One business segment is made up of

healthcare operations in Dedicare, providing doctors and other healthcare staff on a temporary basis. The other business segment comprises Poolia's other operations, i.e. temporary staffing and permanent placement of skilled professionals. Healthcare activities form a separate segment as the market, clients, candidate structure and business logic differ from those of Poolia's other activities. Dedicare conducts business under its own operative management and is established in Sweden and Norway. It is reported as a discontinued operation because of the Annual General Meeting passing a resolution on a dividend to the shareholders. During the period, the geographical segment division has changed as Denmark is now included in the Sweden segment with regard to organisation and accounting. There were no significant changes in total assets or in the distribution of assets within or between segments.

Accounting policies

The year-end Report has been prepared in accordance with IAS 34, Interim Financial Reporting, and the Swedish Annual Accounts Act, and for the parent company in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2, Accounting for Legal Entities. Unless specified otherwise below, the accounting policies applied for the Group and the parent company correspond with the accounting policies applied when preparing the most recent annual report.

In April 2011 the Annual General Meeting passed a resolution on a dividend comprising all the company's shares in the subsidiary, Dedicare AB. As it is the same parties that have the controlling influence before and after the distribution of assets, IFRIC 17, Distribution of Non-cash Assets to Owners, does not apply. Consequently, there has been no revaluation of Poolia's shares in Dedicare.

New and revised IFRS standards and interpretations from IFRIC coming into effect from 2011 have not had any significant effect on the Group's financial reporting.

The changes in RFR 2 Reporting for Legal Entities that came into force and were valid for the financial year 2011 meant that Group contributions are no longer posted to shareholders' equity. A Group contribution that the parent company receives from a subsidiary is reported according to the same principles as normal dividends from subsidiaries and is reported as financial income. The change in RFR 2 relating to Group contributions has meant that Poolia no longer reports Group contribution received under other comprehensive income, but as financial income in comprehensive income. The report of Group contribution received in 2010, to the amount of MSEK 25.0, has been adjusted in the year-end report for 2011. Group contribution received in 2011 totals MSEK 25.6. Other changes in RFR 2 had no significant effect on the parent company's financial statements.

The Board of Directors and the Chief Executive Officer hereby certify that this year-end report provides a fair view of the activities, financial position and financial results of the parent company and the Group, and describes significant risks and uncertainty factors faced by the company and the companies that are part of the Group.

Proposed appropriation of profits

Poolia's business generates cash flow that correlates closely with the financial result, which in the event of a profit

generates liquidity that exceeds the need for operating capital. The company's growth strategy is based on continued organic growth and growth by acquisition; the latter applies mainly in connection with the penetration of new markets.

The Board of Directors' long-term dividend policy is that annual dividends shall normally exceed 50% of the Group's post-tax profit.

The Board of Directors believes that Poolia's financial position is good and that the dividend proposed below does not prevent the company from performing its obligations in the short and the long term, and that it also does not prevent the company from undertaking necessary investments. The Group's cash holding as of 31 December 2011 totals MSEK 7.5, and during 2012 the Group expects to generate a positive cash flow. The proposed dividend is thus authorised with due regard to the requirements specified in section 17:3(2) and (3) of the Swedish Companies Act. It is proposed that 30 April 2012 be the reconciliation date.

The Board of Directors proposes a cash dividend of SEK 0.43 (0.4) per share. This means that a total of MSEK 7.4 (6.8) will be paid in dividends to shareholders.
