Food & Beverage back to organic growth, US continues to be strong

The second quarter of 2025 showed organic growth in both segments. Sales are developing well, but the impact from currency had a negative effect on profit compared to last year.

The global macroeconomic situation continues to be uncertain, but demand has so far been good with continued positive sales development in the US, and the Asia Pacific, Middle East and Africa region finally returning to growth.

Good growth in Food & Beverage

Sales of Food & Beverage increased by 3.3% organically, driven by strong growth in the Americas, Asia Pacific, Middle East and Africa, while sales in Europe declined slightly. EBITA margin declined somewhat compared to last year, due to higher operational costs, but also due to weak sales in Beverage. US tariffs had no material impact. Order intake for Food & Beverage was significantly higher than last year in all regions.

Improved margin in Laundry

Organically, sales of Laundry increased by 1.0%. Sales in the US were down at the beginning of the quarter due to uncertainty about tariffs but improved towards the end of the quarter. EBITA margin improved somewhat, despite a significant negative impact from currency equivalent to 2.5% in margin. US tariffs had no material impact. Order intake was somewhat higher than a year ago.

Improved sustainability rating

I am proud to report that EcoVadis, a provider of business sustainability ratings, has awarded us the prestigious Gold Medal, placing us in the top 5% of companies globally in terms of sustainable business practices. In addition, we have estab-

Alberto Zanata, President and CEO

lished a framework for green financing to further integrate the company's climate change mitigation ambition into our financing set-up.

Focus on cost efficiency

Sales and order intake developed well during the quarter, but profitability did not improve due to the currency impact and higher operational costs. We will maintain a higher pace in R&D during 2025 and 2026, due to large investments in both Laundry and Cooking.

During the quarter, we have had a limited impact from the current tariffs and, if these levels remain, we should be able to mitigate the impact for the rest of the year.

So far, given the macroeconomic uncertainty, we have not been able to offset the currency impact. However, this is our aim medium term. In parallel, we will increase our focus on general cost efficiency to make our company leaner, more agile and productive. The combination of innovation and cost efficiency will support our ability to future-proof the Group. These actions make me confident that we should be able to improve our performance going forward.

Alberto Zanata,
President and CEO

The global macroeconomic situation continues to be uncertain, but demand has so far been good with continued positive sales development.

Alberto Zanata, President and CEO

Financial overview

Development during the second quarter, April-June 2025

Net sales

Net sales for the second quarter amounted to SEK 3,195m (3,268), a decrease of 2.2% compared to the same period last year. Organically, sales increased by 2.4%. The acquisition of Adventys contributed by 0.2%. Currency had a negative impact of 4.8%.

Sales in Food & Beverage increased organically by 3.3%, and sales in Laundry, increased organically by 1.0%.

Organically, sales in Europe decreased by approximately 1%, while sales in Americas increased by approximately 9% and in Asia-Pacific, Middle East and Africa by 6%.

Changes in net sales, %	Apr-Jun 2025	Apr-Jun 2024
Organic growth*	2.4	-0.7
Acquisitions*	0.2	5.9
Divestments*	-	-
Changes in exchange rates	-4.8	-1.6
Total	-2.2	3.7

*) Alternative performance measures used in this report are explained on pages 23-24.

Operating income and EBITA

Operating income excluding amortization of intangible assets (EBITA) amounted to SEK 392m (410), corresponding to a margin of 12.3% (12.5). Operating income amounted to SEK 340m (353), corresponding to a margin of 10.6% (10.8). Currency, and high operational costs have had a negative impact on EBITA. The impact from currency is equivalent to 0.9% in EBITA margin.

Financial net

Net financial items amounted to SEK -22m (-40). The Finance net is lower due to lower debt.

Income for the period

Income for the second quarter amounted to SEK 217m (230), corresponding to SEK 0.75 (0.80) in earnings per share. Income tax for the period amounted to SEK -101m (-83). The tax rate for the second quarter was 31.8% (26.5). The income tax rate was higher, partially due to tax on internal dividends.

Group common cost

Group common cost was SEK -44m (-45).

Development during the year, January–June 2025

Net sales

Net sales for the first six months amounted to SEK 6,268m (6,323), a decrease of 0.9% compared to the same period last year. Organically, sales increased by 1.0%. The acquisition of Adventys contributed by 0.4%. Currency had an effect of –2.3%.

Sales in Food & Beverage increased organically by approximately 1%, and sales of Laundry were flat. Organically, sales in Europe were flat, and increased by approximately 4% in Americas, but declined by approximately 1% in Asia-Pacific, Middle East and Africa.

Changes in net sales, %	Jan–Jun 2025	Jan–Jun 2024
Organic growth*	1.0	–2.5
Acquisitions*	0.4	6.9
Divestments*	–	–
Changes in exchange rates	–2.3	–1.2
Total	–0.9	3.3

*) Alternative performance measures used in this report are explained on pages 23–24.

Operating income and EBITA

Operating income excluding amortization of intangible assets (EBITA) amounted to SEK 755m (736), corresponding to a margin of 12.1% (11.6). Currency had a negative effect on the EBITA margin. The corresponding period of last year was burdened by integration related costs of SEK 45m.

Operating income amounted to SEK 645m (624), corresponding to a margin of 10.3% (9.9).

Financial net

Net financial items amounted to SEK –43m (–73). The finance net is lower due to lower debt and currency impact

Income for the period

Income for the first six months amounted to SEK 416m (401), corresponding to SEK 1.45 (1.40) in earnings per share. Income tax for the period amounted to SEK –187m (–149). The tax rate for the first six months was 31.0% (27.1). The income tax was higher, partially due to tax on internal dividends.

Group common cost

Group common cost was SEK –80m (–85).

Middle-East, Africa

17% (17)

Segment Food & Beverage

In the second quarter, Food & Beverage sales were SEK 1,987m (2,041), a decrease of 2.7% compared to the same period last year. Organically, sales increased by 3.3%, the acquisition of Adventys contributed by 0.3%, and currency had an effect of -6.2%.

Sales increased in Americas by approximately 8%, by 13% in Asia-Pacific, Middle East and Africa (APMEA), but declined by

approximately 1% in Europe. The increase in sales in Americas was driven by continued sales growth to chains, but also sales growth to institutions. The sales increase in APMEA is particularly strong in the Middle East that has returned to growth. The sales decline in Europe is against a very strong development in South Europe in the corresponding quarter of last year, but also lower sales in Beverage.

Operating income excluding amortization of intangible assets (EBITA) amounted to SEK 232m (252), corresponding to a margin of 11.7% (12.3). The decline in EBITA is due to country mix, lower sales of Beverage, and higher operational costs.

Operating income amounted to SEK 193m (211), corresponding to a margin of 9.7% (10.3).

Parent Company

The Parent Company's activities include head office as well as production and sales in and from Sweden.

Net sales and financial position for the Parent Company

Net sales for the Parent Company, Electrolux Professional AB, for the period from January 1 to June 30, 2025 amounted to SEK 1,617m (1,566) of which SEK 654m (644) referred to sales to Group Companies and SEK 963m (922) to external customers. Income after financial items was SEK 549m (324). Income for the period amounted to SEK 538m (265).

Capital expenditure in tangible and intangible assets was SEK 52m (11).

Cash and cash equivalents at the end of the period amounted to SEK 626m, as against SEK 616m in the beginning of the year.

Undistributed earnings in the Parent Company at the end of the period amounted to SEK 7,448m, as against SEK 7,176m at the beginning of the year.

During the second quarter 2025, Electrolux Professional AB has received internal dividends of 565m (43).

On May 14, 2025, Electrolux Professional AB paid a dividend of SEK 244m to its shareholders.

The income statement and balance sheet for the Parent Company are presented on page 19.

Risk and uncertainty factors

Electrolux Professional Group is an international group with a wide geographic spread and is thus exposed to a number of business and financial risks. Risk management in Electrolux Professional Group aims to identify, control and reduce risks. The risk factors are described in the Annual Report and consists of strategic risks, operational risks, industry risks, sustainability risks and financial risks. Compared to the Annual Report, which was issued on April 2, 2025, and the subsequent frequent announcements by the US administration on tariffs, it is possible that any new reciprocal tariffs on imports into the United States and its impact on the global economy, could have an adverse impact on the Group's business and financial position.

Other disclosures

Conversion of shares

According to Electrolux Professional's articles of association, owners of A-shares have the right to have such shares converted to B-shares. Conversion reduces the total number of votes in the Company. 1,995 shares were converted in the second quarter. The total number of registered shares in the company on June 30, 2025, amounted to 287,397,450 of which 8,027,342 are Series A and 279,370,108 are Series B. The total number of votes amounted to 35,964,352.8.

Employees

The number of employees at the end of the quarter was 4,307 (4,365).

Events after the balance sheet day

After the end of the reporting period, no significant events have taken place that could affect the company's operations.

Annual General Meeting 2025

Electrolux Professional's Annual General Meeting was held on May 7, 2025, in Stockholm. The shareholders were also able to exercise their voting rights by advance postal voting. The parent company's and the Group's income statements, and balance sheets were adopted, and it was resolved that a dividend of SEK 0.85 per share should be distributed for the financial year 2024. All members of the Board of Directors were re-elected, except Lorna Donatone who had chosen to decline re-election, and Shannon Garcia was elected as new member of the Board of Directors. Deloitte AB was re-elected as auditor for a period until next Annual General Meeting. A performance-based, long term share program for 2025 including hedging measures related thereto was approved, with similar conditions to previous year.

The Board of Directors and the President and CEO certify that the interim report gives a true and fair overview of the Parent Company Electrolux Professional AB and the Group's operations, their financial position and results of operations and describes significant risks and uncertainties facing the Parent Company and other companies in the Group.

Review Report

Introduction

We have reviewed the interim report for Electrolux Professional AB (publ) for the period January 1 – June 30, 2025. The Board of Directors and the CEO are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with ISA and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

Stockholm, 22 July 2025

Notes

Note 1 ACCOUNTING PRINCIPLES

Electrolux Professional Group applies International Financial Reporting Standards (IFRS) as adopted by the European Union. This report has been prepared in accordance with IAS 34, Interim Financial Reporting.

The Group's interim reports contain a condensed set of financial statements. For the Group this chiefly means that the disclosures are limited compared to the annual report. Enumerated amounts presented in tables and statements may not always agree with the calculated sum of the related line items due to rounding differences. The aim is for each line item to agree with its source and therefore there may be rounding differences affecting the total when adding up the presented line items.

The accounting principles adopted in the preparation of this interim report apply to all periods and comply with the accounting principles presented in the Group's Annual Report 2024.

For the Parent Company financial statements in general are presented in condensed versions and with limited disclosures compared to the annual report. The interim financial statements of Electrolux Professional AB have been prepared in accordance with the Swedish Annual Accounts Act chapter 9.

The most recent annual financial statements of Electrolux Professional AB have been prepared in compliance with the Swedish Annual Accounts Act (1995:1554) and recommendation RFR2, Accounting for legal entities of the Swedish Financial Reporting Board.

Reportable segments

Food & Beverage and Laundry represent the Group's reportable segments.

Note 2 DISAGGREGATION OF REVENUE

Revenue from sales of products is recognized at a point in time, when control of the products has transferred. Revenue from services related to installation of products, repairs or maintenance service is recognized over the time the service is provided. Sales of these services are not material in relation to the Group's total net sales.

Geography is considered to be an important attribute when disaggregating the reportable segment's revenue. Therefore, the table below presents net sales per geographical region based on the location of the end customer.

SEKm	Apr-Jun 2025			Apr-Jun 2024		
	Food & Beverage	Laundry	Total	Food & Beverage	Laundry	Total
Geographical region						
Europe	1,165	710	1,875	1,234	741	1,975

Americas	1,161	351	1,511	1,130	352	1,482
Total	3,846	2,422	6,268	3,893	2,430	6,323

Note 3 FAIR VALUES AND CARRYING AMOUNTS OF FINANCIAL ASSETS AND LIABILITIES

The Group strives for arranging master-netting agreements (ISDA) with the counterparts for derivative transactions and has established such agreements with the majority of the counterparties, i.e., if a counterparty will default, assets and liabilities will be netted. Derivative assets and liabilities are presented gross in the balance sheet

Fair value estimation

Valuation of financial instruments at fair value is done at quoted market prices. Level 1 instruments quoted on the market, e.g., the major bond and interest-rate future markets, are all marked-to market with the current price. The foreign-exchange spot rate is

used to convert the value into SEK. For level 2 instruments where no observable price is available on the market, cash flows are discounted using the deposit/swap curve of the cash flow currency. If no proper cash flow schedule is available, e.g., as in the case with forward-rate agreements, the underlying schedule is used for valuation purposes.

To the extent option instruments are used, the valuation is based on the Black & Scholes formula.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate. The

Group's financial assets and liabilities are measured according to the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for assets or liabilities either directly or indirectly.

Level 3: Inputs for the assets or liabilities that are not entirely based on observable market data.

Definitions and reconciliation of alternative performance measures

Electrolux Professional Group presents certain measures that are not defined under IFRS (alternative performance measures – “APMs”). These are used by management to assess the financial and operational performance of the Group. Management believes that these APMs provide useful information regarding the Group’s

financial and operating performance. Such measures may not be comparable to similar measures presented by other companies. Consequently, APMs have limitations as analytical tools and should not be considered in isolation or as a substitute for related financial measures prepared in accordance with IFRS. The APMs have been

derived from the Group’s internal reporting and are not audited. The APM reconciliations can be found on the Group’s website www.electroluxprofessionalgroup.com/reports-and-presentations/

APM	Definition	Reason for use
Organic growth %	Change in sales growth excluding net FX impact and acquisitions.	The Group’s presentation currency is SEK while net sales are mainly in other currencies. Organic growth is dependent on fluctuations in SEK versus other currencies, and acquired or divested businesses can have a further impact on reported net sales. Organic growth adjusted for acquisitions, divestments and currency shows the underlying sales development without these parameters.
Acquisitions %	Change in net sales during the current period attributable to acquired operations in relation to prior year sales, following a period of 12 months commencing on the acquisition date.	See "Organic growth" above.
Divestments %	Change in net sales during the current period attributable to divested operations in relation to the prior period’s sales, following a period of 12 months commencing on the divestment date.	See "Organic growth" above.
Operating income (EBIT)	Earnings before interest and tax.	Used as an indicator that shows the Group’s ability to make a profit, regardless of the method of financing (determines the optimal use of debt versus equity).
Operating margin (EBIT margin)	Operating income expressed as a percentage of net sales.	Operating margin shows the operating income as a percentage of net sales. Operating margin is a key internal measure as the Group believes it provides users of the financial statements with a better understanding of the Group’s financial performance both short and long term.
Items affecting comparability	Material profit or loss items such as capital gains and losses from divestments of product groups or major units, close-downs or significant down-sizing of major units or activities, significant impairment, and other major costs or income items.	Summarizes events and transactions with significant effects, which are relevant for understanding the financial performance when comparing income for the current period with previous periods.
Operating margin excluding items affecting comparability	Operating income less items affecting comparability as a percentage of net sales.	Operating margin excluding items affecting comparability shows the operating income as a percentage of net sales adjusted for the items affecting comparability defined above. This is a key internal measure as the Group believes that it provides users of the financial statements with a better understanding of the Group’s financial performance both short and long term.
Capital expenditure	Investments in property, plant and equipment, product development, and other intangible assets.	Used to ensure that cash spending is in line with the Group’s overall strategy for the use of cash.

APM	Definition	Reason for use
EBITA	Operating income less amortization and write-down related to intangible assets (excluding right-of-use assets).	EBITA gives an indication of the operating income less amortization and write-down related to intangible assets (excluding right-of-use assets), mainly used to follow up operating income without the impact of amortization of surplus values related to acquisitions.
EBITA margin	EBITA expressed as a percentage of net sales.	Used to evaluate business performance in relation to net sales in order to measure the efficiency of the Group.
EBITA excluding items affecting comparability	Operating income less amortization and write-down related to intangible assets (excluding right-of-use assets) and less items affecting comparability.	Items affecting comparability vary between years and periods and are excluded from EBITA in order to analyze trends.
EBITA margin excluding items affecting comparability	EBITA excluding items affecting comparability, expressed as a percentage of net sales.	Items affecting comparability vary between years and periods and are excluded from EBITA margin in order to analyze trends.
EBITDA	EBITA less depreciation.	This is an indicator of the cash-generating capacity of the business in relation to sales.
Operating cash flow after investments	Cash flow from operations and investments adjusted for financial items paid net, taxes paid, and acquisitions/divestments of operations.	To monetarize the cash from core operations.
Net debt	Shows short-term borrowings (short-term loans and trade receivables with recourse), accrued interest expenses and prepaid interest income and long-term borrowings, lease liabilities, net provisions for post-employment benefits less liquid funds (cash and cash equivalents, prepaid interest expenses, and accrued interest income).	Net debt describes the Group's total debt financing and is monitored by management.
Net debt/EBITDA	Net debt in relation to EBITDA (Net debt is based on the end-of-period balance. EBITDA is calculated based on last four rolling quarters).	A measurement of financial risk, showing net debt in relation to cash generation.
Operating working capital, % of net sales	Sum of currency-adjusted last twelve months' average of inventories, trade receivables, and trade payables (Operating working capital) as a percentage of the currency-adjusted last twelve months' average net sales. All months of the period are currency adjusted by applying the end-of-period average currency rate.	Used to evaluate how efficient the Group is in generating cash in relation to net sales.
Net assets	Total assets less liquid funds and pension assets minus non-interest-bearing liabilities. (non-interest-bearing = total liabilities less equity, total borrowings, pension liabilities and lease liabilities)	Net assets describes the operating assets less operating liabilities used to run the business.
Return on net assets, %	Twelve months rolling operating income expressed as a percentage of average twelve months operating net assets.	Used to evaluate how efficiently the Group is generating profit from the net assets employed.
End of period operating working capital, % of annualized net sales	Sum of currency adjusted end of period trade receivables, trade payables and inventories (Operating working capital) as a percentage of the annualized currency adjusted last three months' average net sales. All months of the period are currency adjusted by applying the end of period average currency rate.	Snapshot of how end of period operating working capital is evolving compared with average historical trend.

Meeting needs beyond tomorrow

Financial targets

Net sales growth
Organic annual growth of more than

4%

over time, complemented by value-accretive acquisitions.

Profitability
EBITA margin of

15%

Asset efficiency
Operating working capital below

15%

of net sales.

Capital structure
Net debt/EBITDA ratio below

2.5x

Higher levels may be temporarily acceptable in the event of acquisitions, provided there is a clear path to de-leveraging.

Dividend policy

Electrolux Professional's target is for the dividend to correspond to approximately 30% of the income for the year. The timing, declaration, and number of future dividends will depend on the company's financial situation, earnings, capital requirements, and debt service obligations.

Our business

- > **Product development**
and innovation of smart products offering sustainable solutions.
- > **Production**
World-class manufacturing focused on lower environmental impact and an excellent working environment.
- > **Marketing**
focused on making our customers' work-life easier, more profitable and truly sustainable.
- > **Sales**
mainly through dealers and distributors.
- > **Customer Care**
and sales of chemicals, accessories, spare parts and consumables.

Our strategic targets

Our strategy for growth is based on the plans of our Business areas, and rests on four pillars, built on a foundation of operational excellence and sustainability in the supply chain. We want to do our part to improve society and generate value for our stakeholders. We believe that the Agenda 2030 and the UN's Sustainable Development Goals (SDGs) are good indicators of the priorities and challenges that the world is facing.

GROW

through innovation and sustainability.

EXPAND

in high-margin products, segments, and geographies.

BOOST

Customer Care and service-as-a-solution.

INVEST

In digitalization to unlock additional customer value.

Why invest in Electrolux Professional?

These key strengths and competitive advantages drive our development and performance, and they all provide a strong foundation for us to execute our strategy.

Structurally growing end-markets

We operate in a market that structurally has been growing driven by GDP growth, higher income, and people spending more time eating out of the home.

Geographically balanced business

Approximately half of our sales are in Europe and the other half equally distributed between the Americas and APAC-MEA. This makes us less dependent on any single geography and its economic progress.

Track record of solid EBITA and cash flow

We have always – even during the pandemic and other major economic downturns – been a profitable company generating strong cash conversion and cash flow.

Focused plan to grow organically, supported by M&A

We have the products and the activities in place to grow organically. In addition, we have been able to complete an average of one acquisition per year to further grow the company.

Innovation focused

In order to drive growth and profitability, and also to provide products that increase customer productivity and efficiency, we invest more in R&D than the industry average.

Sustainability leader

We are the sustainability leader in our industry, according to external rankings such as CDP, Sustainalytics, and EcoVadis. All new products we launch have improved sustainability performance.

Shareholders information

President and CEO Alberto Zanata's comments on the second quarter results 2025

Today's press release is available on the Electrolux Professional Group website www.electroluxprofessionalgroup.com

Telephone conference 09.00 CET
